## AN ACT

July 28, 1937

[S. 2661]

[Public, No. 220]

Granting the consent of Congress to a compact entered into by the States of Maine and New Hampshire for the creation of The Maine-New Hampshire Interstate Bridge Authority.

Maine-New Hampshire Interstate Bridge Authority.

Consent granted Maine and New Hampshire for creation of.

Portsmouth-Kittery bridge, etc.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the consent of Congress is hereby given to an interstate compact for the creation of The Maine-New Hampshire Interstate Bridge Authority, executed on the 14th day of April 1937 by the representatives of the States of Maine and New Hampshire, which compact has been deposited in the Department of State of the United States and reads as follows:

INTERSTATE BRIDGE AUTHORITY FOR THE PORTSMOUTH-KITTERY BRIDGE  
AND APPROACHES THERETO

## COMPACT

## BETWEEN THE STATE OF MAINE AND THE STATE OF NEW HAMPSHIRE

Compact relative to bridge construction across Piscataqua River.

Whereas, the single highway bridge serving as the sole facility for vehicular traffic over and across the Piscataqua river between the state of New Hampshire and the state of Maine is wholly inadequate to care for and accommodate such traffic over said river between the said two states and therefore causes such traffic congestion in and upon the streets and highways of the city of Portsmouth, New Hampshire, and the town of Kittery, Maine, that the lives and property of the citizens of said communities and the travelers on said streets and highways are constantly endangered; and

Whereas, the antiquated and obsolete wooden pile bridge serving as the sole facility for railroad traffic over and across the Piscataqua river between the state of New Hampshire and state of Maine is wholly inadequate to care for and accommodate the railroad traffic between the said two states; and

Whereas, the narrow draw-span of said wooden pile railroad bridge the sole facility permitting passage of water traffic up and down said river is wholly inadequate to permit the passage of steamers and vessels of broad beam from the sea inland to serve the large industrial plants now situate on the banks of said river and therefore constitutes an obstacle to further enlargement of these industries and the development of numerous other industrial sites located so that passage through said bridge is absolutely necessary; and

Whereas, the only remedy for the conditions now existing is the construction of a bridge across said river which by coordinating the facilities required by vehicular and railroad traffic will remove the obstacle to water traffic; and

Whereas, the solution to this problem will result in great economy and benefit not only to the states of Maine and New Hampshire but to the nation and will require the cordial cooperation of the states of New Hampshire and Maine in the encouragement of the investment of capital as well as the formulation and execution of the necessary plans and such result can best be accomplished through the joining of the two states of Maine and New Hampshire by and through a common agency.

Now therefore, the said states of New Hampshire and Maine do hereby agree and pledge each to the other as follows:

## ARTICLE I

Said states agree to and pledge, each to the other, faithful cooperation in the planning, execution and construction of a suitable vehicu-

lar and railroad bridge with suitable highway approaches thereto and draw-span therein; holding the same in high trust for the benefit of the nation and of the said two states.

## ARTICLE II

There is hereby created "The Maine-New Hampshire Interstate Bridge Authority" which shall be a body corporate and politic having the powers and jurisdiction hereinafter enumerated and such other and additional powers as shall be conferred upon it by the legislature of either state concurred in by the legislature of the other state or by act or acts of Congress as hereinafter provided.

## ARTICLE III

The Authority shall consist of six members, three residents of the state of New Hampshire and three residents of the state of Maine. The New Hampshire members to be chosen by the state of New Hampshire and the Maine members to be chosen by the state of Maine in the manner and for the term fixed and determined from time to time by the legislatures of either state respectively. Any member may be removed or suspended from office as provided by the law of the state from which he shall be appointed.

## ARTICLE IV

The members of the Authority shall, for the purpose of doing business, constitute a board and may adopt suitable rules and regulations for its management.

## ARTICLE V

The Authority shall constitute a body both corporate and politic with full power and authority (1) to sue and be sued; (2) to have a seal and alter the same at pleasure; (3) to adopt from time to time and amend by-laws covering its procedure, rules and regulations governing use of the bridge and any of the other services made available in connection with said bridge, to publish the same, if such publication is necessary or advisable and to cause records of its proceedings to be kept; (4) to construct, maintain, reconstruct and operate an interstate toll bridge over the Piscataqua river between the city of Portsmouth in New Hampshire and the town of Kittery in Maine and for this purpose; (5) to acquire, hold and dispose of personal property for its purposes; (6) to acquire in the name of the Authority by purchase, condemnation, lease or otherwise, any real property and rights or easements therein, deemed by it necessary or desirable for its purposes, and to use such property; (7) to acquire any such real property by the exercise of the power of condemnation in the manner provided by laws and statutes of the said two states or otherwise; (8) to charge and collect fees, fares and tolls for the use of said bridge and other services made available in connection with the said bridge; (9) to make contracts with the United States, the state of New Hampshire, the state of Maine, public corporations or bodies existing therein, and private corporations and individuals; (10) to accept grants and the cooperation of the United States or any agency thereof in the construction, maintenance, reconstruction, operation and financing of the bridge and its highway approaches and to do any and all things necessary in order to avail itself of such aid and cooperation; (11) to employ such assistants, agents and servants as it shall deem necessary or desirable for its purposes; (12) to exercise any of its powers in the public domain of the United States unless the exercise of such powers is not permitted by the laws of the United

States; (13) to borrow money, make and issue negotiable notes, bonds and other evidences of indebtedness or obligations of the Authority and to secure the payment of such obligations or any part thereof by pledge of any part of the revenue of the bridge and, (14) to do all other lawful things necessary and incidental to the foregoing powers. All property of the Authority and all property held in the name of either state pursuant to the provisions hereof shall be exempt from levy and sale by virtue of any execution and no execution or other judicial process shall issue against the same. No judgment against the Authority shall be lien upon its property held in the name of either state pursuant to the provisions hereof. No property now or hereafter vested in or held by either state, by any county, city, town, village, district, township or other municipality thereof shall be taken by the Authority without the authority and consent of the state, county, town, village, district or township or other municipality in which it is located; nor shall anything impair or invalidate any bond, indebtedness of either state, any county, city, town, village, district or township or other municipality nor impair the provisions of law to regulate the payment into sinking funds of revenue derived from municipal property or dedicate the revenues derived from any municipal property to a specific purpose.

#### ARTICLE VI

The Authority shall have such additional powers and duties as may hereafter be delegated to and imposed upon it from time to time by the action of the legislature of either state concurred in by the legislature of the other. Unless and until otherwise provided, it shall make a biennial report to the legislatures of both states, setting forth in detail the operations and transactions conducted by it pursuant to this agreement and any legislation thereunder. The Authority shall not pledge the credit of either state except by and with the expressed authority of the legislature thereof.

#### ARTICLE VII

Nothing in this agreement or compact is intended or shall be construed to affect the laws now existing which vest jurisdiction over or control of railroads in the public service commission of the state of New Hampshire, or the public utilities commission of the state of Maine, or the Interstate Commerce Commission of the United States or any agency of either state or the United States.

#### ARTICLE VIII

The Authority shall elect from its members a chairman, vice chairman, clerk and treasurer and may appoint such officers and employees as it may require for the performance of its duties and shall fix and determine by resolution their qualifications and duties.

#### ARTICLE IX

Expenses incurred by the Authority in the interim between execution of this agreement or compact and the date money received from grants, bonds or revenues shall be available shall be borne by the said two states in equal shares and shall be raised as each state shall determine.

#### ARTICLE X

Unless and until otherwise determined by the action of the legislatures of the two states, no action of the Authority shall be binding unless taken at a meeting at which at least two members from each

state are present and unless four votes are cast therefor, two from each state. Each state reserves the right hereafter to provide by law for the exercise of a veto power by the governor thereof over any action of any commissioner appointed therefrom.

#### ARTICLE XI

Unless and until otherwise determined by the legislatures of the two states, the Bridge Authority shall not incur any obligations for salaries, office or other administrative expenses, within the provisions of Article IX, prior to the making of appropriations adequate to meet the same.

#### ARTICLE XII

The Bridge Authority is hereby authorized to make suitable rules and regulations not inconsistent with the constitution of the United States or of either state, which shall be binding and effective on all persons and corporations affected thereby.

#### ARTICLE XIII

The two states shall provide penalties for violations of any order, rule or regulation of the Bridge Authority, and for the manner of enforcing the same.

#### ARTICLE XIV

## COMPACT FOR ESTABLISHING UNIFORM STANDARDS FOR CONDITIONS OF EMPLOYMENT, PARTICULARLY WITH REGARD TO THE MINIMUM WAGE, IN STATES RATIFYING THE SAME

Title I—Policy and  
intent.

### TITLE I—POLICY AND INTENT

Preamble.

Whereas enforcement among the industrial States of the Union of reasonably uniform standards for labor in industry, determined in accordance with the general welfare, would not only benefit labor but would be of real advantage to employers, removing the pressure toward low wages, long hours of work, exploitation of minors and women, and similar action commonly admitted to be injurious to all concerned; and

Whereas the advantages of such uniform standards have already been indicated by the operation of the National Industrial Recovery Act and the codes of fair competition adopted thereunder; and

Whereas such operation points to the desirability of continued uniform legislation affecting labor standards, by Federal action or otherwise, and of joint action by the States to establish such uniform standards; and

Whereas the establishment of reasonably uniform standards in States concerned with the same general fields of industry and competitors in the same markets will afford the advantages of stability in labor legislation to all concerned, with disadvantage to none: Now, therefore

Establishment of  
compact.

The States whose commissioners have signed this compact and which have, by their legislature, ratified the same, acting to promote the general welfare of the people, do hereby join in establishing the said compact to provide uniform minimum standards affecting labor and industry in the said States: *Provided, however,* That nothing herein contained shall be construed as abrogating, repealing, modifying, or interfering with the operation of laws already in effect in any State party hereto which establish standards equivalent to or above those herein specified, nor to prevent or discourage the enactment of additional laws establishing similar or higher standards; nor shall anything herein contained repeal or affect any laws concerning conditions of employment that are not in conflict herewith or that deal with subjects not included herein: *And provided further,* That no part of any title of this compact nor of any legislation adopted in pursuance thereof, except as may be expressly specified in such title or in such legislation, shall be in effect in any State party hereto until this compact shall have been approved as provided in section 6 of title II, but whenever title I and II hereof and any other title included herein are so approved and ratified, such titles shall be in full force and effect as laws of the States so approving and ratifying the same.

The Commission may enter into an agreement with any bond or trust company in the United States as trustee having the power to make such agreement, setting forth the duties of the Commission in respect of the construction, maintenance, operation, repair, and insurance of the bridge and/or the ferry or ferries, the conservation and application of all funds, the safeguarding of money on hand or on deposit, and the rights and remedies of said trustee and the holders of the bonds, restricting the individual right of

action of the bondholders as is customary in trust agreements respecting bonds of corporation. Such trust agreement may contain such provisions for protecting and enforcing the rights and remedies of the trustee and the bondholders as may be reasonable and proper and not inconsistent with the law and also provisions for approval by the original purchasers of the bonds of the employment of consulting engineers and of the security given by the bridge contractors and by any bank or trust company in which the proceeds of bonds or of bridge or ferry tolls or other moneys of the Commission shall be deposited, and may provide that no contract for construction shall be made without the approval of the consulting engineers.

The bridge constructed under the authority of this Act shall be deemed to be an instrumentality for interstate commerce, the Postal Service, and military and other purposes authorized by the Government of the United States, and said bridge and ferry or ferries and the bonds issued in connection therewith and the income derived therefrom shall be exempt from all Federal, State, municipal, and local taxation. Said bonds shall be sold in such manner and at such time or times and at such price as the Commission may determine, but no such sale shall be made at a price so low as to require the payment of more than 6 per centum interest on the money received therefor, computed with relation to the absolute maturity of the bonds in accordance with standard tables of bond values, and the face amount thereof shall be so calculated as to produce, at the price of their sale, the cost of the bridge and its approaches and the land, easements, and appurtenances used in connection therewith and, in the event the ferry or ferries are to be acquired, also the cost of such ferry or ferries and the lands, easements, and appurtenances used in connection therewith, when added to any other funds made available to the Commission for the use of said purposes. The cost of the bridge and approaches and approach highways, and ferry or ferries, shall be deemed to include interest during construction of the bridge, and for twelve months thereafter, and all engineering, legal, architectural, traffic-surveying, and other expenses incident to the construction of the bridge or the acquisition of the ferry or ferries, and the acquisition of the necessary property, and incident to the financing thereof, including the cost of acquiring existing franchises, right, plans, and works of and relating to the bridge, now owned by any person, firm or corporation, and the cost of purchasing all or any part of the shares of stock of any such corporate owner if, in the judgment of the Commission, such purchases should be found expedient. If the proceeds of the bonds issued shall exceed the cost as finally determined, the excess be placed in the sinking fund hereinafter provided. Prior to the preparation of definitive bonds the Commission may, under like restrictions, issue temporary bonds or interim certificates with or without coupons or <sup>1</sup> any denomination whatsoever, exchangeable for definitive bonds when such bonds that have been executed are available for delivery.

SEC. 5. In fixing the rates of toll to be charged for the use of such bridge the same shall be so adjusted as to provide a fund sufficient to pay for the reasonable cost of maintaining, repairing, and operating the bridge and its approaches under economical management, and to provide a sinking fund sufficient to pay the principal and interest of such bonds as the same shall fall due and the redemption or repurchase price of all or any thereof redeemed or repurchased before maturity as herein provided. All tolls and other revenues from said bridge are hereby pledged to such uses and to the application thereof as hereinafter in this section required. After payment or provision for payment therefrom of all such cost of maintaining,

repairing, and operating and the reservation of an amount of money estimated to be sufficient for the same purpose during an ensuing period of not more than six months, the remainder of tolls collected shall be placed in the sinking fund, at intervals to be determined by the Commission prior to the issuance of the bonds. An accurate record of the cost of the bridge and its approaches; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected, shall be kept and shall be available for the information of all persons interested. The Commission shall classify in a reasonable way all traffic over the bridge, so that the tolls shall be so fixed and adjusted by it as to be uniform in the application thereof to all traffic falling within any such reasonable class, regardless of the status or character of any person, firm, or corporation participating in such traffic, and shall prevent all use of such bridge for traffic except upon payment of the tolls so fixed and adjusted. No toll shall be charged officials or employees of the Commission or the Government of the United States or any State, county, or municipality in the United States while in the discharge of their duties or municipal police or fire departments when engaged in the proper work of any such department.

SEC. 6. Nothing herein contained shall require the Commission or its successors to maintain or operate any ferry or ferries purchased hereunder, but in the discretion of the Commission or its successors any ferry or ferries so purchased, with the appurtenances and property thereto connected and belonging, may be sold or otherwise disposed of or may be abandoned and/or dismantled whenever in the judgment of the Commission or its successors it may seem expedient so to do. The Commission and its successors may fix such rates of toll for the use of such ferry or ferries as it may deem proper, subject to the same conditions as are hereinabove required as to tolls for traffic over the bridge. All tolls collected for the use of the ferry or ferries and the proceeds of any sale or disposition of any ferry or ferries shall be used, so far as may be necessary, to pay the cost of maintaining, repairing, and operating the same, and any residue thereof shall be paid into the sinking fund hereinabove provided for bonds. An accurate record of the cost of purchasing the ferry or ferries; the expenditures for maintaining, repairing, and operating the same; and of the daily tolls collected shall be kept and shall be available for the information of all persons interested.

SEC. 7. After payment of the bonds and interest, or after a sinking fund sufficient for such payment shall have been provided and shall be held for that purpose, the Commission shall deliver deeds or other suitable instruments of conveyance of the interest of the Commission in and to the bridge, that part within Indiana to the State of Indiana or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereafter referred to as the Indiana interests) and that part within Kentucky to the Commonwealth of Kentucky or any municipality or agency thereof as may be authorized by or pursuant to law to accept the same (hereinafter referred to as the Kentucky interests), under the condition that the bridge shall thereafter be free of tolls and be properly maintained, operated, and repaired by the Indiana interests and the Kentucky interests, as may be agreed upon; but if either the Indiana interests or the Kentucky interests shall not be authorized to accept or shall not accept the same under such conditions, then the bridge shall continue to be owned, maintained, operated, and repaired by the Commission, and the rates of tolls shall be so adjusted as to provide a fund of not to exceed the amount necessary for the proper maintenance, repair, and operation of the bridge and its approaches under economical management, until such time as both

the Indiana interests and the Kentucky interests shall be authorized to accept and shall accept such conveyance under such conditions. If at the time of such conveyance the Commission or its successors shall not have disposed of such ferry or ferries, the same shall be disposed of by sale as soon as practicable, at such price and upon such terms as the Commission or its successors may determine.

(a) Notwithstanding any restriction or limitation imposed by the Act entitled "An Act to provide that the United States shall aid the States in the construction of rural post roads, and for other purposes", approved July 11, 1916, or by the Federal Highway Act, or by an Act amendatory of or supplemental to either thereof, the Secretary of Agriculture may extend Federal aid under such Acts, for the construction of said bridge, out of any moneys allocated to the State of Indiana with the consent of the Department of Highways of said State, and out of any moneys allocated to the Commonwealth of Kentucky with the consent of the Department of Highways of said State.

The Commission shall consist of A. S. Griffin, James R. Wilson, Sam C. Coots, W. J. Hinchey, and E. G. Lindeman. Such Commission shall be a body corporate and politic. Each member of the Commission shall qualify within thirty days after the approval of this Act by filing in the office of the Secretary of Agriculture an oath that he will faithfully perform the duties imposed upon him by this Act, and each person appointed to fill a vacancy shall qualify in like manner within thirty days after his appointment. Any vacancy occurring in said Commission by reason of failure to qualify as above provided, or by reason of death or resignation, shall be filled by the Secretary of Agriculture. Before the issuance of bonds as hereinabove provided, each member of the Commission shall give such bond as may be fixed by the Chief of the Bureau of Public Roads of the Department of Agriculture, conditioned upon the faithful performance of all duties required by this Act. The Commission shall elect a chairman and a vice chairman from its members, and may establish rules and regulations for the government of its own business. A majority of the members shall constitute a quorum for the transaction of business.

SEC. 9. The Commission shall have no capital stock or shares of interest or participation, and all revenues and receipts thereof shall be applied to the purposes specified in this Act. The members of the Commission shall also be entitled to receive traveling-expense allowance of 10 cents a mile for each mile actually traveled on the business of the Commission. It is hereby declared to be the purpose of Congress to facilitate the construction of a bridge and proper approaches across the Ohio River at or near Owensboro, and to authorize the Commission to promote said object and purposes, with full power to contract either with the State Highway Commission of Indiana or the Department of Highways of Kentucky or both in relation to the construction, operation, and maintenance of said bridge and approaches.

The petition shall be filed with the court in whose territorial jurisdiction the petitioner or the major part thereof is located, and, in the case of any unincorporated tax or special-assessment district having no officials of its own, the petition may be filed by its governing authority or the board or body having authority to levy taxes or assessments to meet the obligations to be affected by the plan of composition. The petition shall be accompanied by payment to the clerk of a filing fee of \$100, which shall be in lieu of the fees required to be collected by the clerk under other applicable chapters of the Uniform Bankruptcy Act of 1898, as amended. The petition shall state that a plan of composition has been prepared, is filed and submitted with the petition, and that creditors of the petitioner owning not less than 51 per centum in amount of the securities affected by the plan (excluding, however, any such securities owned, held, or controlled by the petitioner), have accepted it in writing. There shall be filed with the petition a list of all known creditors of the petitioner, together with their addresses so far as known to petitioner, and description of their respective securities showing separately those who have accepted the plan of composition, together with their separate addresses, the contents of which list shall not constitute admissions by the petitioner in a proceeding under this chapter or otherwise. Upon the filing of such a petition the judge shall enter an order either approving it as properly filed under this chapter, if satisfied that such petition complies with this chapter and has been filed in good faith, or dismissing it, if not so satisfied.

"The 'plan of composition', within the meaning of this chapter, may include provisions modifying or altering the rights of creditors generally, or of any class of them, secured or unsecured, either through issuance of new securities of any character, or otherwise, and may contain such other provisions and agreements not inconsistent with this chapter as the parties may desire.

"No creditor shall be deemed to be affected by any plan of composition unless the same shall affect his interest materially, and in case any controversy shall arise as to whether any creditor or class of creditors shall or shall not be affected, the issue shall be determined by the judge, after hearing, upon notice to the parties interested.

"For all purposes of this chapter any creditor may act in person or by an attorney or a duly authorized agent or committee. Where any committee, organization, group, or individual shall assume to act for or on behalf of creditors, such committee, organization, group, or individual shall first file with the court in which the proceeding is pending a list of the creditors represented by such committee, organization, group, or individual, giving the name and address of each such creditor, together with a statement of the amount, class, and character of the security held by him, and attach thereto copies of the instrument or instruments in writing signed by the owners of the bonds showing their authority, and shall file with the list a copy of the contract or agreement entered into between such committee,

The judge shall prescribe the form of the notice, which shall specify the manner in which claims and interests of creditors shall be filed or evidenced, on or before the date fixed for the hearing. The notice shall be published at least once a week for three successive weeks in at least one newspaper of general circulation published within the jurisdiction of the court, and in such other paper or papers having a general circulation among bond dealers and bondholders as may be designated by the court, and the judge may require that it may be published in such other publication as he may deem proper. proceeding, including compensation for services rendered and expenses incurred in obtaining the deposit of securities and the preparation of the plan, whether such work may have been done by the petitioner or by committees or other representatives of creditors, and may allow reasonable compensation for the attorneys or agents of any of the foregoing, and may apportion the amount so determined among the parties to the proceeding as may be just: *Provided, however,* That no fees, compensation, reimbursement, or other allowances for attorneys, agents, committees, or other representatives of creditors shall be assessed against the petitioner or paid from any revenues, property, or funds of the petitioner except in the manner and in such sums, if any, as may be provided for in the plan of composition. An appeal may be taken from any order making such determination or award to the United States Circuit Court of Appeals for the circuit in which the proceeding under this chapter is pending, independently of other appeals which may be taken in the proceeding, and such appeal shall be heard summarily.

"On thirty days' notice by any creditor to petitioner, the judge, if he finds that the proceeding has not been prosecuted with reasonable diligence, or that it is unlikely that the plan will be accepted by said proportion of creditors, may dismiss the proceeding.

"(c) Upon entry of the order fixing the time for the hearing, or at any time thereafter, the judge may upon notice enjoin or stay, pending the determination of the matter, the commencement or continuation of suits against the petitioner, or any officer or inhabitant thereof, on account of the securities affected by the plan, or to enforce any lien or to enforce the levy of taxes or assessments for the payment of obligations under any such securities, or any suit or process to levy upon or enforce against any property acquired by the petitioner through foreclosure of any such tax lien or special assessment lien, except where rights have become vested, and may enter an interlocutory decree providing that the plan shall be temporarily operative with respect to all securities affected thereby and that the payment of the principal or interest, or both, of such securities shall be temporarily postponed or extended or otherwise readjusted in the same manner and upon the same terms as if such plan had been finally confirmed and put into effect, and upon the entry of such decree the principal or interest, or both, of such securities which have otherwise become due, or which would otherwise become due, shall not be or become due or payable, and the payment of all such securities shall be postponed during the period in which such decree shall remain in force, but shall not, by any order or decree, in the proceeding or otherwise, interfere with (a) any of the political or governmental powers of the petitioner; or (b) any of the property or revenues of the petitioner necessary for essential governmental purposes; or (c) any income-producing property, unless the plan of composition so provides.

"(d) The plan of composition shall not be confirmed until it has been accepted in writing, by or on behalf of creditors holding at least two-thirds of the aggregate amount of claims of all classes affected by such plan and which have been admitted by the petitioner or allowed by the judge, but excluding claims owned, held, or controlled by the petitioner: *Provided, however,* That it shall not be requisite to the confirmation of the plan that there be such acceptance by any creditor or class of creditors (a) whose claims are not affected by the plan; or (b) if the plan makes provision for the payment of their claims in cash in full; or (c) if provision

SEC. 8. If a return required by this title is not filed, or if a return when filed is incorrect or insufficient and the maker fails to file a corrected or sufficient return within twenty days after the same is required by notice from the assessor, the assessor shall determine the amount of tax due from such information as he may be able to obtain, and, if necessary, may estimate the tax on the basis of external indices such as number of employees of the person concerned, rentals paid by him, stock on hand, and other factors. The assessor shall give notice of such determination to the person liable for the tax. Such determination shall finally and irrevocably fix the tax unless the person against whom it is assessed shall within fifteen days after the giving of notice of such determination apply to the Board of Equalization and Review of the District for hearing and review, and the burden of proving the incorrectness of the assessor's determination shall be upon the taxpayer. After such hearing said Board shall give notice of its decision to the person liable for the tax. The decision of said Board may be reviewed by application to the District Court of the United States for the District of Columbia, if the said application be filed within twenty days after said notice: *Provided, however*, That the amount of any tax sought to be reviewed shall, with interest and penalties thereon, if any, be first deposited with the clerk of said court.

Any vacancy that may occur in the board of directors through death, resignation or other cause shall be filled at the next annual meeting of shareholders by the election of a director to serve out the unexpired portion of the term, or a special meeting of shareholders may be called for this purpose. "Any other provisions of law to the contrary notwithstanding, two or more national farm loan associations may with the approval of

the Farm Credit Administration, and by an agreement not inconsistent with any rules and regulations prescribed by the said Administration, provide for a common board of directors to be elected by the shareholders of the associations that are parties to the agreement: *Provided, however*, That each member of any such board shall be a shareholder in an association that is a party to the agreement and shall be a bona fide resident of the territory within which such association is authorized to do business: *And provided further*, That no such agreement shall provide for a term of office in excess of three years for any member of such board. The number of members of the common board of directors shall be specified in the agreement and shall be five or more. The agreement may provide that any director may be elected by the shareholders of one or more of the associations which are parties to the agreement; that in the balloting for any director an association may vote at a separate meeting of its shareholders or at a joint meeting with the shareholders of any other association or associations participating in the election of the director; and that the candidate receiving the highest aggregate number of votes at such meeting or meetings shall be declared elected. Whenever two or more national farm loan associations have entered into such an agreement, the members of the common board of directors provided for in the agreement shall be ex officio the members of the board of directors of each association that is a party to the agreement, any provisions of this Act to the contrary notwithstanding.

"Whenever a national farm loan association has entered into such an agreement, the power of approving applications for loans through the association and the power of admitting persons to membership in the association shall be vested in the loan committee of the association in lieu of being vested in its board of directors. The loan committee of any such association shall be elected annually by the shareholders of the association, instead of by its board of directors, and the shareholders shall in addition annually elect two alternates to serve as members of the loan committee at such times as regular members may be absent or disqualified."

S. C., 1934 edition, title 12, sec. 723), except as herein otherwise specifically provided, and may authorize such association to elect to membership borrowers having loans made pursuant to said paragraphs on lands situated within the chartered territory of the association. If and when all impairment is removed in the stock owned by shareholders with loans which were made prior to the date on which the first member was admitted to the association pursuant to this sub-

Such agreements shall be made upon such terms and conditions and for such consideration as may be approved by the Farm Credit Administration."

(d) Section 29 of the Federal Farm Loan Act, as amended (U. S. C., 1934 edition, title 12, secs. 961-966), is further amended by adding at the end thereof the following new paragraphs:

"Upon receiving satisfactory evidence that any national farm loan association has failed to meet its outstanding obligations of any description, and that it will be to the best interests of its creditors and stockholders for the association to continue in business, the Farm Credit Administration may, in its discretion, in lieu of appointing a receiver as hereinabove in this section provided, appoint a conservator for such association and require of him such bond and security as the Administration may deem proper. The person so appointed shall be a land bank appraiser appointed under the authority of section 3 of this Act: *Provided, however,* That the Farm Credit Administration may, in its discretion, appoint some other qualified person. Any land bank appraiser appointed as a conservator shall serve without any additional compensation. tion's assets and indebtedness, the conservator shall determine the fair book value of the outstanding stock of said association and the claims of any retired shareholders based on their previous stock ownership. Upon its completion said report shall be submitted to the Federal land bank of the district and said bank shall thereupon indicate its approval thereof or note any exceptions thereto and submit such report together with its exceptions, if any, to the Farm Credit Administration for consideration.

"If said report is approved, in whole or in part, by the Farm Credit Administration, upon recommendation of the Federal land bank of the district said Administration shall then decide whether such association shall be permitted to pay off and retire its capital stock at its fair book value, upon full payment of the mortgage loans in connection with which such stock was issued originally, and to settle on the same basis the claims of any of its stockholders who have previously paid their loans in full, but have not received credit for, or the proceeds of their stock in such association. At the same time the Farm Credit Administration shall also decide whether it will permit said association to admit new members pursuant to section 25 (b) of the Farm Credit Act of 1937. If the decision of said Administration is in the affirmative, it may terminate the conservatorship and turn the affairs of the association back to its board of directors. If said report is not approved or the decision of said Administration is in the negative, it may, in its discretion, terminate the conservatorship and permit such association to resume the transaction of its business subject to such terms, conditions, restrictions, and limitations as it may prescribe for the protection of the rights of creditors and stockholders, or said Administration may appoint a receiver for the association as elsewhere provided in this section.

"Any settlement made with a retiring or retired shareholder on the basis of the fair book value of the stock of the association pursuant to this section shall be made only on condition that said shareholder agrees to accept such settlement as payment in full. If any shareholder or former shareholder does not desire to settle on such basis, he may, in lieu thereof, be given a participation certificate which will entitle him to share pro rata, on the basis of the number of shares of stock which he owned in the association, in the distribution of any assets of the association which is made after all of its indebtedness to creditors has been satisfied. The Federal land bank of the district may pay to the association from the proceeds of bank stock retired in connection with the payment in full of loans endorsed by such association an amount sufficient to permit the association to make the settlements provided for in this section and any balance of such proceeds shall be retained by the bank and applied as a credit on the indebtedness of the association to it.

"After any determination by the Farm Credit Administration as herein provided, that the fair book value of the stock of a national farm loan association is less than the par value thereof, periodically thereafter any increase in the fair book value of said stock resulting from earnings of the association and actual recoveries in excess of the valuations used by the Farm Credit Administration in determining the fair book value of the stock of such association, as herein provided, shall, under rules and regulations of the Farm Credit Administration, be apportioned ratably on a per-share basis to all outstanding stock or participation certificates having a fair book value less than par until the fair book value of all such stock or participation certificates is equal to the par value thereof.

"In the event that the indebtedness, as determined by the conservator, of an association which has been under conservatorship pursuant to this section increases in excess of the earnings of such association, the Farm Credit Administration may, in its discretion, again appoint a conservator for the association, or it may appoint a receiver as elsewhere provided in this section."

## JOINT RESOLUTION

Granting the consent of Congress to a compact between the States of New York and New Jersey providing for the creation of the Palisades Interstate Park Commission as a joint corporate municipal instrumentality of said States with appropriate rights, powers, duties, and immunities, for the transfer to said commission of certain functions, jurisdiction, rights, powers, and duties together with the properties of the bodies politic now existing in each State known as "Commissioners of the Palisades Interstate Park", and for the continuance of the Palisades Interstate Park.

August 19, 1937  
[H. J. Res. 445]  
[Pub. Res., No. 65]

Whereas, pursuant to chapter 170 of the Laws of 1937 of the State of New York and chapter 148 of the Laws of 1937 of the State of New Jersey, the States of New York and New Jersey entered into a compact which is as follows:

Palisades Interstate  
Park Commission.  
Compact between  
New York and New  
Jersey for creation of.

## "COMPACT

"Whereas, heretofore the states of New York and New Jersey have cooperated in the establishment and maintenance of an interstate park along the front of the Palisades in said states and in the mountainous lands in Rockland and Orange counties in the state of New York, by respectively enacting legislation creating in each state a body politic by the name and style of "Commissioners of the Palisades Interstate Park", with power to acquire lands for such park, and improve and manage the same, and by respectively appointing, in practically all cases, the same persons as members of each of such state bodies politic; and

"Whereas, it is confidently believed that the creation, by interstate compact, of a joint corporate municipal instrumentality to hold and manage such interstate park will provide greater flexibility and harmony in the management of the park,

"Now, therefore, in consideration of the premises and of the mutual advantages and benefits to accrue to the peoples of the states of New York and New Jersey from this compact and in consideration of the mutual covenants of the parties hereto herein contained, the sovereign state of New York and the sovereign state of New Jersey do hereby agree as follows:

## "ARTICLE I

"The park or parks in the state of New York under the jurisdiction, management or control of Commissioners of the Palisades Interstate Park, a body politic created pursuant to chapter one hundred seventy of the laws of nineteen hundred of the state of New York (hereinafter referred to as "New York state board"), and the park or parks in the state of New Jersey now under the jurisdiction, management or control of Commissioners of the Palisades Interstate Park, a body politic created pursuant to chapter eighty-seven of the laws of nineteen hundred of the state of New Jersey (hereinafter referred to as "New Jersey state board," the New York state board and the New Jersey state board being hereinafter referred to collectively as "state boards"), shall continue to exist and shall be maintained in the two states as an interstate park for the use of the public and for the purpose of preserving the scenic beauty of the Palisades and other lands therein. Such park shall be called "Palisades Interstate Park." The parties hereto do hereby agree to and pledge, each to the other, faithful co-operation

in the future planning, improvement, development, maintenance, government and management of the park, holding in high trust for the benefit of the public the special blessings and natural advantages thereof.

#### “ARTICLE II

“There is hereby created a body corporate and politic with the name and style of ‘Palisades Interstate Park Commission’ (for brevity hereinafter referred to as ‘the commission’) which shall be a joint corporate municipal instrumentality of both the state of New York and the state of New Jersey for the purpose of effecting the objects of this compact and which shall be deemed to be performing governmental functions of the two states in the performance of its duties hereunder. The commission shall have power to sue and be sued, to use a common seal and to make and adopt suitable by-laws. The commission shall consist of ten members, five of whom shall be citizens and residents of the state of New York and five of whom shall be citizens and residents of the state of New Jersey. For the purpose of doing business the members of the commission shall constitute a board. The present members of the two state boards shall be the first members of the commission for their respective states for the remainder of the terms for which they were respectively appointed. Each member of the commission shall be a citizen and resident of the state of which his predecessor was a citizen and each member of the commission other than the first members shall be appointed by the governor of the state of which his predecessor was a citizen, by and with the approval of the senate of such state. Each member shall take an oath of office to perform faithfully all of the duties of his office according to the best of his ability. Such oath of office may be administered by any officer of the state of which such member is a citizen who is authorized to take oaths of office of any state officer and shall be filed in the office of the secretary of state of such state. The term of office of each member other than said first members shall be five years. Each member shall hold office until his successor shall have been appointed and shall have taken his oath of office, but each term shall be deemed to commence at the end of the preceding five-year term regardless of when the incumbent is appointed or takes the oath of office. If a member shall cease to be a citizen and resident of the state for which he was appointed he shall cease to be a member of the commission. If a member of the commission shall die, resign, be removed, refuse to act, or cease to be a citizen and resident of the state for which he was appointed, the vacancy so created shall be filled, for the unexpired term only, by the appointment of a citizen and resident of the state of which such member was a citizen by the governor thereof, by and with the approval of the senate of such state. Each member of the commission may be removed from office for neglect of duty or misconduct in office by the governor of the state of which such member is a citizen after giving such member a copy of the charges against him and an opportunity of being publicly heard in person or by counsel or both in his own defense, upon not less than ten days’ notice. No member of the commission shall receive any compensation for his services as a member, but each member shall be entitled to receive his actual disbursements for his expenses in performing the duties of his office. The commission shall annually choose a president, a vice-president, a treasurer and a secretary from among its members and may also appoint such other officers as it may deem necessary or appropriate to carry out the purposes of this compact.

## “ARTICLE III

“There are hereby transferred to the commission all of the functions, jurisdiction, rights, powers and duties of the respective state boards, as now prescribed by the laws of the respective states, and the same shall hereafter be exercised and performed by the commission, subject to such modifications thereof as are contained in this compact. Either the state of New York or the state of New Jersey may by law applicable to parks or park commissions generally within such state, or by law specifically applicable to the commission or to any of the parks within such state under its jurisdiction, and without the concurrence of the other state, withdraw, modify, alter or amend any of the functions, jurisdiction, rights, powers and duties transferred to the commission by this article or confer additional functions, jurisdiction, rights, powers and duties on the commission, but such action by one state shall be effective only within the territorial limits of such state. The commission shall also have such additional functions, jurisdiction, rights, powers and duties as may be conferred upon it by both states.

## “ARTICLE IV

“1. All legal and equitable title to or in any property, tangible or intangible and whether real, personal or mixed, used or held as a part of, in connection with, or for the purposes of the park or parks now under the jurisdiction, management or control of the respective state boards, or connected with the maintenance or control thereof, in so far as the same shall have heretofore been vested in either of such state boards, is hereby transferred to and vested in the commission, subject to such liens, easements, permits, life rights and other contracts relating thereto or in respect thereof as may now lawfully exist. All such legal and equitable title shall, upon the taking effect of this compact, forthwith and thereafter reside in the commission without further act or deed or transfer.

“2. The commission shall succeed and shall be and hereby is substituted for each of the state boards in so far as either of them has any obligation or liability to any person, firm or corporation, has undertaken or commenced any proceeding or other business, is a party to any action, suit or proceeding (the substitution of the commission for either of the state boards in any action, suit or proceeding to be deemed to be by operation hereof without motion or order) or has issued or promulgated any orders, rules or regulations, and also in so far as, consistent with the other provisions and the purposes of this compact, the commission should be regarded as succeeding and as substituted for either of the state boards in any other respect in order that the purposes of this compact may be accomplished. The balance of all appropriations heretofore made by either state and remaining to the credit of either of the state boards, to which either state board is entitled, or in the future would become entitled if its existence continued, shall be deemed to be appropriations to the commission herein created, and the commission shall, upon the taking effect of this compact, succeed to all the rights to any such appropriations theretofore made with the same force and effect as if the commission had originally been specifically named in the respective appropriation acts instead of the respective state boards for which such appropriations were made.

“3. All lands the title to which is hereby transferred to or shall hereafter be owned by the commission shall be and continue under the jurisdiction of the commission and shall be used only for public

park purposes and none of said lands or any part thereof shall be sold, exchanged or conveyed except with the consent of both states by specific enactments; *provided, however*, that the commission shall have power to grant easements, licenses, permits and other rights over any lands held by it in either state when in the opinion of the commission the same will not interfere with the use and enjoyment of the park by the public.

"4. Each state may by legislation make rules and regulations for the use and government, including regulation of traffic, of such portions of the park as lie within the boundaries of the state, and such parts of any state, county or other public highways as lie within the limits of such portions of the park, and all lands, parks and parkways in the state under the jurisdiction of the commission, prescribe the penalty or penalties for violation of any such rules or regulations, prescribe the procedure for enforcement of any such penalty or penalties and provide the court or courts in which any such enforcement is to be sought.

#### "ARTICLE V

"1. All money, securities and other property, real and personal, heretofore received by either of the state boards or hereafter received by the commission by way of gift, bequest or devise, may be retained by the commission and, except in so far as the purpose or manner of using the same is otherwise specifically designated or restricted by the terms of any such gift, bequest or devise, may be used in the commission's discretion in either state for any park purpose; and the commission may likewise retain and use all revenue and income arising solely from such money, securities and other property so received by way of gift, bequest or devise or from facilities or operations financed solely by funds so received. In the case of revenue and income arising partly from specific property received by way of gift, bequest or devise or from specific facilities or operations financed partly by funds so received, the commission may likewise retain and use such proportion of such revenue and income as the amount of gifts, bequests or devises, or the proceeds thereof, invested in each such property, facility or operation, bears to the total amount invested therein. The legislature of either state may from time to time by law specifically made applicable to the commission prescribe other terms and conditions upon which or purposes for which any gifts, bequests, or devises thereafter made of money, securities, or other property may be accepted for use in such state or used in such state or prescribe a different manner of administering gifts, bequests or devises thereafter made in such state and the disposition of all revenues or income arising therefrom.

"2. Either state may from time to time by law require the commission to render to any designated official or official body of such state such reports and such estimates of revenues and expenditures as may be specified in such law.

#### "ARTICLE VI

"The commission shall not pledge the credit of either state except by and with the authority of the legislature thereof.

#### "ARTICLE VII

"Neither the state of New York nor the state of New Jersey shall be liable for any torts of the commission, its members, officers or employees, except as provided by the laws of such state, but each member, officer and employee of the commission shall, with respect to

any tort committed by him in the exercise of his duties or in the course of his employment as such member, officer or employee, be deemed to be an officer or employee of the state where such tort was committed, and any liability arising from such tort shall be governed by the laws of such state.

### “ARTICLE VIII

“This compact may be amended from time to time by the concurrent action of the two states who are parties hereto.

“In witness whereof, the sovereign states of New York and New Jersey, respectively, have caused this compact to be signed and sealed in triplicate by their respective commissioners thereunto duly authorized this 28th day of June, nineteen hundred thirty seven.

"(a) If after a hearing on a complaint made by any person under section 6, or without hearing as provided in section 6, paragraphs (c) and (d), or upon failure of the party complained against to answer a complaint duly served within the time prescribed, or to appear at a hearing after being duly notified, the Secretary deter-

“(b) If any commission merchant, dealer, or broker does not pay the reparation award within the time specified in the Secretary's order, the complainant, or any person for whose benefit such order was made, may within three years of the date of the order file in the district court of the United States for the district in which he resides or in which is located the principal place of business of the commission merchant, dealer, or broker, or in any State court having general jurisdiction of the parties, a petition setting forth briefly the causes for which he claims damages and the order of the Secretary in the premises. The orders, writs, and processes of the district courts may in these cases run, be served, and be returnable anywhere in the United States. Such suit in the district court shall proceed in all respects like other civil suits for damages, except that the findings and orders of the Secretary shall be prima-facie evidence of the facts therein stated, and the petitioner shall not be liable for costs in the district court, nor for costs at any subsequent state of the proceedings, unless they accrue upon his appeal. Such suit in the district court shall be a trial de novo and shall proceed in all respects like other civil suits for damages, except that the findings of fact and order or orders of the Secretary shall be prima-facie evidence of the facts therein stated. Appellee shall not be liable for costs in said court if appellee prevails he shall be allowed a reasonable attorney's fee to be taxed and collected as a part of his costs. Acquisition of real and personal property.

SEC. 2. (a) The electric energy generated in the operation of the said Bonneville project shall be disposed of by the said administrator as hereinafter provided. The administrator shall be appointed by the Secretary of the Interior; shall be responsible to said Secretary of the Interior; shall receive a salary at the rate of \$10,000 per year; and shall maintain his principal office at a place selected by him in the vicinity of the Bonneville project. The administrator shall, as hereinafter provided, make all arrangements for the sale and disposition of electric energy generated at Bonneville project not required for the operation of the dam and locks at such project and the navigation facilities employed in connection therewith. He shall act in consultation with an advisory board composed of a representative designated by the Secretary of War, a representative designated by the Secretary of the Interior, a representative designated by the Federal Power Commission, and a representative designated by the Secretary of Agriculture. The form of administration herein established for the Bonneville project is intended to be provisional pending the establishment of a permanent administration for Bonneville and other projects in the Columbia River Basin. The Secretary of War shall install and maintain additional machinery, equipment, and facilities for the generation of electric energy at the Bonneville project when in the judgment of the administrator such additional generating facilities are desirable to meet actual or potential market requirements for such electric energy. The Secretary of War shall schedule the operations of the several electrical generating units and appurtenant equipment of the Bonneville project in accordance with the requirements of the administrator. The Secretary of War shall provide and maintain for the use of the administrator at said Bonneville project adequate station space and equipment, including such switches, switchboards, instruments, and dispatching facilities as may be required by the administrator for proper reception, handling, and dispatching of the electric energy produced at the said project, together with transformers and other equipment required by the administrator for the transmission of such energy from that place at suitable voltage to the markets which the administrator desires to serve.

(b) In order to encourage the widest possible use of all electric energy that can be generated and marketed and to provide reasonable outlets therefor, and to prevent the monopolization thereof by limited groups, the administrator is authorized and directed to provide, construct, operate, maintain, and improve such electric transmission lines and substations, and facilities and structures appurtenant thereto, as he finds necessary, desirable, or appropriate for the purpose of transmitting electric energy, available for sale, from the Bonneville project to existing and potential markets, and, for the purpose of interchange of electric energy, to interconnect the Bonneville project with other Federal projects and publicly owned power systems now or hereafter constructed.

(c) The administrator is authorized, in the name of the United States, to acquire, by purchase, lease, condemnation, or donation, such real and personal property, or any interest therein, including lands, easements, rights-of-way, franchises, electric transmission lines, sub-

stations, and facilities and structures appurtenant thereto, as the administrator finds necessary or appropriate to carry out the purposes of this Act. Title to all property and property rights acquired by the administrator shall be taken in the name of the United States.

(d) The administrator shall have power to acquire any property or property rights, including patent rights, which in his opinion are necessary to carry out the purposes of this Act, by the exercise of the right of eminent domain and to institute condemnation proceedings therefor in the same manner as is provided by law for the condemnation of real estate.

(e) The administrator is authorized, in the name of the United States, to sell, lease, or otherwise dispose of such personal property as in his judgment is not required for the purposes of this Act and such real property and interests in land acquired in connection with construction or operation of electric transmission lines or substations as in his judgment are not required for the purposes of this Act: *Provided, however,* That before the sale, lease, or disposition of real property or transmission lines, as herein provided, the administrator shall secure the approval of the President of the United States.

(f) Subject to the provisions of this Act, the administrator is authorized, in the name of the United States, to negotiate and enter into such contracts, agreements, and arrangements as he shall find necessary or appropriate to carry out the purposes of this Act.

SEC. 3. As employed in this Act, the term "public body", or "public bodies", means States, public power districts, counties, and municipalities, including agencies or subdivisions of any thereof.

As employed in this Act, the term "cooperative", or "cooperatives", means any form of non-profit-making organization or organizations of citizens supplying, or which may be created to supply, members with any kind of goods, commodities, or services, as nearly as possible at cost.

SEC. 4. (a) In order to insure that the facilities for the generation of electric energy at the Bonneville project shall be operated for the benefit of the general public, and particularly of domestic and rural consumers, the administrator shall at all times, in disposing of electric energy generated at said project, give preference and priority to public bodies and cooperatives.

(b) To preserve and protect the preferential rights and priorities of public bodies and cooperatives as provided in section (a) and to effectuate the intent and purpose of this Act that at all times up to January 1, 1941, there shall be available for sale to public bodies and cooperatives not less than 50 per centum of the electric energy produced at the Bonneville project, it shall be the duty of the administrator in making contracts for the sale of such energy to so arrange such contracts as to make such 50 per centum of such energy available to said public bodies and cooperatives until January 1, 1941: *Provided,* That the electric energy so reserved for but not actually purchased by and delivered to such public bodies and cooperatives prior to January 1, 1941, may be disposed of temporarily so long as such temporary disposition will not interfere with the purchase by and delivery to such public bodies and cooperatives at any time prior to January 1, 1941: *Provided further,* That nothing herein contained shall be construed to limit or impair the preferential and priority rights of such public bodies or cooperatives after January 1, 1941; and in the event that after such date there shall be conflicting or competing applications for an allocation of electric energy between any public body or cooperative on the one hand and a private agency of any character on the other, the application of such public body or cooperative shall be granted.

(c) An application by any public body or cooperative for an allocation of electric energy shall not be denied, or another application competing or in conflict therewith be granted, to any private corporation, company, agency, or person, on the ground that any proposed bond or other security issue of any such public body or cooperative, the sale of which is necessary to enable such prospective purchaser to enter into the public business of selling and distributing the electric energy proposed to be purchased, has not been authorized or marketed, until after a reasonable time, to be determined by the administrator, has been afforded such public body or cooperative to have such bond or other security issue authorized or marketed.

(d) It is declared to be the policy of the Congress, as expressed in this Act, to preserve the said preferential status of the public bodies and cooperatives herein referred to, and to give to the people of the States within economic transmission distance of the Bonneville project reasonable opportunity and time to hold any election or elections or take any action necessary to create such public bodies and cooperatives as the laws of such States authorize and permit, and to afford such public bodies or cooperatives reasonable time and opportunity to take any action necessary to authorize the issuance of bonds or to arrange other financing necessary to construct or acquire necessary and desirable electric distribution facilities, and in all other respects legally to become qualified purchasers and distributors of electric energy available under this Act.

SEC. 5. (a) Subject to the provisions of this Act and to such rate schedules as the Federal Power Commission may approve, as hereinafter provided, the administrator shall negotiate and enter into contracts for the sale at wholesale of electric energy, either for resale or direct consumption, to public bodies and cooperatives and to private agencies and persons. Contracts for the sale of electric energy to any private person or agency other than a privately owned public utility engaged in selling electric energy to the general public, shall contain a provision forbidding such private purchaser to resell any of such electric energy so purchased to any private utility or agency engaged in the sale of electric energy to the general public, and requiring the immediate canceling of such contract of sale in the event of violation of such provision. Contracts entered into under this subsection shall be binding in accordance with the terms thereof and shall be effective for such period or periods, including renewals or extensions, as may be provided therein, not exceeding in the aggregate twenty years from the respective dates of the making of such contracts. Contracts entered into under this subsection shall contain (1) such provisions as the administrator and purchaser agree upon for the equitable adjustment of rates at appropriate intervals, not less frequently than once in every five years, and (2) in the case of a contract with any purchaser engaged in the business of selling electric energy to the general public, the contract shall provide that the administrator may cancel such contract upon five years' notice in writing if in the judgment of the administrator any part of the electric energy purchased under such contract is likely to be needed to satisfy the requirements of the said public bodies or cooperatives referred to in this Act, and that such cancellation may be with respect to all or any part of the electric energy so purchased under said contract to the end that the preferential rights and priorities accorded public bodies and cooperatives under this Act shall at all times be preserved. Contracts entered into with any utility engaged in the sale of electric energy to the general public shall contain such terms and conditions, including among other things stipulations concerning resale and resale rates by any such utility, as the administrator

may deem necessary, desirable or appropriate to effectuate the purposes of this Act and to insure that resale by such utility to the ultimate consumer shall be at rates which are reasonable and nondiscriminatory. Such contract shall also require such utility to keep on file in the office of the administrator a schedule of all its rates and charges to the public for electric energy and such alterations and changes therein as may be put into effect by such utility.

(b) The administrator is authorized to enter into contracts with public or private power systems for the mutual exchange of unused excess power upon suitable exchange terms for the purpose of economical operation or of providing emergency or break-down relief.

SEC. 6. Schedules of rates and charges for electric energy produced at the Bonneville project and sold to purchasers as in this Act provided shall be prepared by the administrator and become effective upon confirmation and approval thereof by the Federal Power Commission. Subject to confirmation and approval by the Federal Power Commission, such rate schedules may be modified from time to time by the administrator, and shall be fixed and established with a view to encouraging the widest possible diversified use of electric energy. The said rate schedules may provide for uniform rates or rates uniform throughout prescribed transmission areas in order to extend the benefits of an integrated transmission system and encourage the equitable distribution of the electric energy developed at the Bonneville project.

SEC. 7. It is the intent of Congress that rate schedules for the sale of electric energy which is or may be generated at the Bonneville project in excess of the amount required for operating the dam, locks, and appurtenant works at said project shall be determined with due regard to and predicated upon the fact that such electric energy is developed from water power created as an incident to the construction of the dam in the Columbia River at the Bonneville project for the purposes set forth in section 1 of this Act. Rate schedules shall be drawn having regard to the recovery (upon the basis of the application of such rate schedules to the capacity of the electric facilities of Bonneville project) of the cost of producing and transmitting such electric energy, including the amortization of the capital investment over a reasonable period of years. Rate schedules shall be based upon an allocation of costs made by the Federal Power Commission. In computing the cost of electric energy developed from water power created as an incident to and a byproduct of the construction of the Bonneville project, the Federal Power Commission may allocate to the costs of electric facilities such a share of the cost of facilities having joint value for the production of electric energy and other purposes as the power development may fairly bear as compared with such other purposes.

SEC. 8. Notwithstanding any other provision of law, all purchases and contracts made by the administrator or the Secretary of War for supplies or for services except for personal services, shall be made after advertising, in such manner and at such times, sufficiently in advance of opening bids, as the administrator or Secretary of War, as the case may be, shall determine to be adequate to insure notice and opportunity for competition. Such advertisement shall not be required, however, when (1) an emergency requires immediate delivery of the supplies or performance of the services; or (2) repair parts, accessories, supplemental equipment, or services are required for supplies or services previously furnished or contracted for; or (3) the aggregate amount involved in any purchase of supplies or procurement of services does not exceed \$500; in which cases such purchases of supplies or procurement of services may be made in the

open market in the manner common among businessmen. In comparing bids and in making awards, the administrator or the Secretary of War, as the case may be, may consider such factors as relative quality and adaptability of supplies or services, the bidder's financial responsibility, skill, experience, record of integrity in dealing, and ability to furnish repairs and maintenance services, the time of delivery or performance offered, and whether the bidder has complied with the specifications.

## Accounts of operations.

## Experts; salary restriction.

SEC. 10. The administrator, the Secretary of War, and the Federal Power Commission, respectively, shall appoint such attorneys, engineers, and other experts as may be necessary for carrying out the functions entrusted to them under this Act, without regard to the provisions of the civil-service laws and shall fix the compensation of each of such attorneys, engineers, and other experts at not to exceed \$7,500 per annum; and they may, subject to the civil-service laws, appoint such other officers and employees as may be necessary to carry out such functions and fix their salaries in accordance with the Classification Act of 1923 as amended.

## Other personal services.

## Receipts covered in; exception.

SEC. 11. All receipts from transmission and sale of electric energy generated at the Bonneville project shall be covered into the Treasury of the United States to the credit of miscellaneous receipts, save and except that the Treasury shall set up and maintain from such receipts a continuing fund of \$500,000, to the credit of the administrator and subject to check by him, to defray emergency expenses and to insure continuous operation. There is hereby authorized to be appropriated from time to time, out of moneys in the Treasury not otherwise appropriated, such sums as may be necessary to carry out the provisions of this Act, including installation of equipment and machinery for the generation of electric energy and facilities for its transmission and sale.

## Separability provision.

SEC. 13. If any provision of this Act or the application of such provision to any person or circumstance shall be held invalid, the remainder of the Act and the application of such provision to persons or circumstances other than those as to which it is held invalid shall not be affected thereby.

The commission is authorized and directed to investigate the financial, economic, and other conditions of the various United States and Indian reclamation projects, with particular reference to the ability of each such project to make payments of water-right charges without undue burden on the water users, district, association, or other reclamation organization liable for such charges. Such investigation shall include an examination and consideration of any statement filed with the commission, or the Department of the Interior, by any such district, association, or other reclamation organization, or the water users thereof, and, where deemed advisable by the commission and requested by such district, association, or other reclamation organization, said commission may proceed to such project and hold hearings, the proceedings of which shall be reduced to writing and filed with its reports. Said commission, after having made careful investigation and study of the financial, economic, and other conditions of the various United States and Indian reclamation projects and their probable present and future ability to meet such water-right charges, shall report to the Congress as soon as practicable, with its recommendations as to the best, most feasible, and practicable comprehensive permanent plan for such water-right payments with due consideration for the development and carrying on of the reclamation program of the United States, and having par-

An appeal may be taken directly to the Supreme Court of the United States upon application therefor or notice thereof within thirty days after the entry of the order, decree, or judgment granting or denying, after notice and hearing, an interlocutory or permanent injunction in such case. ## JOINT RESOLUTION

August 24, 1937  
[S. J. Res. 207]  
[Pub. Res., No. 69]

Expressing the views of the Congress as to a program for the relief and benefit of agriculture.

Program for relief  
and benefit of agri-  
culture.  
Preamble.

Whereas the whole Nation suffers when agriculture is depressed; and Whereas the Nation has felt and still feels the unfavorable economic consequences of two different kinds of misfortune in agriculture; and

Whereas the first of these misfortunes was the ruinous decline in farm prices from 1929 to 1932; and

Whereas the second kind of misfortune was the drought of 1934 followed by the drought of 1936; and

Whereas a permanent farm program should (a) provide not only for soil conservation but also for developing and improving the crop-adjustment methods of the Agricultural Adjustment Act, (b) protect agriculture and consumers against the consequences of drought, and (c) safeguard farmers and the business of the Nation against the consequences of farm-price decline; and

Whereas it is the sense of Congress that the permanent farm legislation should be based upon the following fundamental principles:

(1) That farmers are entitled to their fair share of the national income;

(2) That consumers should be afforded protection against the consequences of drought, floods, and pestilence causing abnormally high prices by storage of reserve supplies of big crop years for use in time of crop failure;

(3) That if consumers are given the protection of such an ever-normal granary plan, farmers should be safeguarded against undue price declines by a system of loans supplementing their national soil-conservation program; and

(4) That control of agricultural surpluses above the ever-normal granary supply is necessary to safeguard the Nation's investment in loans and to protect farmers against a price collapse due to bumper yields resulting in production beyond all domestic and foreign need.

(5) That the present Soil Conservation Act should be continued, its operations simplified, and provision made for reduced payments to large operators on a graduated scale to promote the interest of individual farming;

(6) That, linked with control of agricultural surpluses, there should be research into new uses for agricultural commodities and the products thereof and search for new uses, new outlets, and new markets, at home and abroad;

(7) That provision should be made for applications to the Interstate Commerce Commission for correction of discriminations now existing against agricultural products in the freight-rate schedules.

Now, therefore, be it

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled*, That abundant production of farm products should be a blessing and not a curse, that therefore legislation carrying out the foregoing principles will be first to engage the attention of the Congress upon its reconvening, and that it is the sense of the Congress that a permanent farm program based upon these principles should be enacted as soon as possible after Congress reconvenes.

Approved, August 24, 1937.

#### JOINT RESOLUTION

Relative to determination and payment of certain claims against the Government of Mexico.

August 25, 1937  
[H. J. Res. 437]  
[Pub. Res., No. 70]

Whereas the Act entitled "An Act to establish a commission for the settlement of the special claims comprehended within the terms of the convention between the United States of America and the United Mexican States concluded April 24, 1934", approved April 10, 1935 (49 Stat. 149), provides for the establishment of the Special Mexican Claims Commission and confers upon that Commission jurisdiction to hear and determine all claims against the Republic of Mexico, notices of which were filed with the Special Claims Commission, United States and Mexico, established by a convention of September 10, 1923, in which the said Commission failed to award compensation, except such claims as may be found by the committee provided for in the Special Claims Convention of April 24, 1934, to be general claims and recognized as such by the General Claims Commission; and

Claims against the Government of Mexico.

Preamble.

48 Stat. 1844; 49 Stat. 149.

49 Stat. 3071.

43 Stat. 1730.  
48 Stat. 1844.  
43 Stat. 1722.  
49 Stat. 3128.

Whereas the said Special Claims Convention of April 24, 1934, provides that the jurisdiction in and validity of the claims found by the said committee to be general claims shall be determined in each case when examined and adjudicated by the Commissioners or Umpire in accordance with the provisions of the General Claims Convention of September 8, 1923, and the protocol of April 24, 1934, or the Special Claims Convention of September 10, 1923, and the protocol of June 18, 1932, in the event it shall be found by the Commissioners or Umpire to have been improperly eliminated from the special claims settlement; and

Whereas certain claims filed with the said Special Claims Commission, United States and Mexico, established by the said convention of September 10, 1923, were found by the said committee to be general claims but have not yet been the subject of any determination by the said General Claims Commission; and

49 Stat. 149.

Whereas the said Special Mexican Claims Commission, established in pursuance of the said Act approved April 10, 1935, expires by the terms of the said Act on August 31, 1937; and

Whereas, by the terms of the protocol of April 24, 1934, between the United States of America and the United Mexican States, the said General Claims Commission expires on October 24, 1937, and the two Governments have undertaken, upon the basis of the joint report of the members of the said Commission, to conclude a convention for the final disposition of the claims pending before the said Commission, the said convention to take either the form of an agreement for an en-bloc settlement of the said claims or the form of an agreement for the disposition of the claims upon their individual merits by reference to an umpire; and

Whereas the committee provided for in the Special Claims Convention of April 24, 1934, found that the amount to be paid by the Government of Mexico in settlement of the special claims comprehended in that convention was \$5,448,020.14, it being understood that the sum thus determined was susceptible of increase after express decision of the General Claims Commission in case the said Commission might decide to be within the jurisdiction<sup>1</sup> of the Special Commission any one or more of the claims which the said committee found to be general claims; and

Whereas the said Special Mexican Claims Commission, in the event that the total amount of the awards made by it upon all claims is greater than the amount which the Government of Mexico has agreed to pay to the Government of the United States in satisfaction of the claims, is required by the said Act approved April 10, 1935, to reduce the awards on a percentage basis to such amount; and

Whereas, in the circumstances set forth, it is not now possible to ascertain which, if any, of the claims found by the said committee to be general claims will be found by the said General Claims Commission to be special claims, nor what will be the amount of the total en-bloc settlement provided for in the said Special Claims Convention of April 24, 1934; and

Whereas payments on awards of the said Special Mexican Claims Commission from funds paid to the Government of the United States by the Government of Mexico under the Special Claims Convention of April 24, 1934, should not, in justice to the beneficiaries, be deferred until the question of the jurisdiction of the claims now pending before the General Claims Commission, by virtue of the classification of such claims as general claims by the joint committee, shall have been finally determined in the manner provided for in the said convention of April 24, 1934, or in the said protocol of the same date: Therefore be it

<sup>1</sup> So in original.

*Resolved by the Senate and House of Representatives of the United States of America in Congress assembled,* That the jurisdiction of the Special Mexican Claims Commission established in pursuance of the Act approved April 10, 1935 (49 Stat. 149), shall not be deemed to include any of the claims found by the committee provided for in the Special Claims Convention of April 24, 1934, to be general claims.

SEC. 2. That for the purposes of the reduction of awards on a percentage basis as provided for in section 4 of the Act approved April 10, 1935 (49 Stat. 149), the amount which the Government of Mexico has agreed to pay to the Government of the United States in satisfaction of the claims shall, subject to the provision in section 3 hereof, be deemed to be the sum of \$5,448,020.14, set forth in the report of the said committee provided for in the said convention of April 24, 1934.

SEC. 3. That, in the event of the reclassification as special claims of any of the claims found by the said committee to be general claims, the claims so reclassified shall be passed upon by said Special Mexican Claims Commission during its existence and thereafter by a Commission to be established in conformity with the said Act of April 10, 1935, and the total amount payable by the Government of Mexico to the Government of the United States on account of the claims so reclassified, together with interest on all deferred payments under the Special Claims Convention of April 24, 1934, shall be added to the sum of \$5,448,020.14 set forth in the report of the said committee. The total amount awarded by the Commission so established upon the claims so reclassified shall be added to the total amount of the original awards made by the Special Mexican Claims Commission, and any necessary readjustment of the awards of the Special Mexican Claims Commission and those that may be made by the Commission to be established pursuant to this section shall be made by the Secretary of the Treasury on the basis prescribed by section 4 of the Act approved April 10, 1935.

SEC. 4. Upon the certification to the Secretary of the Treasury of the awards of the Special Mexican Claims Commission, he shall proceed to make payments as provided for in section 9 of the Act approved April 10, 1935; and upon the certification to the Secretary of the Treasury of awards upon any claims reclassified as special claims he shall, after making the readjustments provided for in section 3 of this resolution, accord priority of payment on such awards until the beneficiaries thereof shall have been placed upon an equal percentage basis as to payments with the beneficiaries of awards of the Special Mexican Claims Commission.

SEC. 5. Section 6 of the Act approved April 10, 1935, creating the Special Mexican Claims Commission, and for other purposes, is amended to read as follows:

"SEC. 6. The Commission shall complete its work within three years from the date on which it undertakes the performance of its duties, at which time all powers, rights, and duties conferred by this Act upon the Commission shall terminate. If the President finds the Commission has completed its work prior to such expiration date, he may terminate all such powers, rights, and duties of the Commission by Executive order."

salesmen shall in addition show the name and address of the real-estate broker by whom the said salesman is or will be employed. Each license shall have imprinted thereon the seal of the Commission, and in addition to the foregoing shall contain such matter as shall be prescribed by the Commission. The license of each real-estate salesman shall be delivered or mailed to the real-estate broker by whom such real-estate salesman is employed and shall be kept in the custody and control of such broker. It shall be the duty of each real-estate broker to conspicuously display his license in his place of business.

At any time within six months, but not thereafter, after the issuance of an original license the Commission may, upon its own motion, and shall, upon the verified complaint, in writing, of any person, provided such complaint, or such complaint together with evidence, documentary or otherwise, presented therewith, shall make out a prima facie case that the licensee is unworthy to hold such license, notify the licensee, in writing, that the question of his honesty, competency, truthfulness, and integrity will be reopened and determined de novo. Such written notice may be served by delivery thereof personally to the licensee or by mailing same by registered mail to the last known business address of the licensee. Thereupon the Commission may require and procure further proof of the licensee's trustworthiness and competency, and if such proof shall not be satisfactory such license shall be recalled and shall thereafter be null and void. Upon the recall of any such license it shall be the duty of the licensee to surrender to the Commission such license. The fee for an original real-estate broker's license and every renewal thereof shall be \$50.

No fee shall be charged for any original license or renewal thereof issued to any firm, partnership, copartnership, association, or corporation all of whose members or officers actively participating in the brokerage business thereof have been issued a broker's license.

The fee for an original real-estate salesman's license and every annual renewal thereof shall be \$10.

Every license shall expire on the 1st day of July of each year, except that the original or initial licenses, first issued under the provisions of this Act, shall expire on the 1st day of July 1938, subject, however, to revocation as hereinbefore provided.

The Commission shall cause to be issued a new license for each ensuing year, in the absence of any reason or condition which might warrant the refusal of the granting of a license, upon receipt of the written request of the applicant and the annual fee therefor, as herein required. The revocation of a broker's license shall automatically suspend every real-estate salesman's license granted to any person by virtue of his employment by the broker whose license has been revoked, pending a change of employer and the issuance of a new license. Such new license shall be issued without charge if granted during the same license year in which the original license is granted.

No person, firm, partnership, copartnership, association, or corporation engaged in the business or acting in the capacity of a real-estate broker or a real-estate salesman within the District of Columbia shall bring or maintain any action in the courts of the District of Columbia for the collection of compensation for any services performed as a real-estate broker or a real-estate salesman or enforcement of any contract relating to real estate without alleging and proving that such person, firm, partnership, copartnership, association, or corporation was a duly licensed real-estate broker or real-estate salesman at the time the alleged cause of action arose.

Maintenance of place of business.

Notice in writing shall be given to the Commission by each licensee of any change of principal business location, whereupon the Commission shall cause to be issued a new license for the unexpired period without charge. The change of business location without notification to the Commission shall automatically cancel the license theretofore issued.

Change of location.

When any real-estate salesman shall be discharged or shall terminate his employment with the real-estate broker by whom he is employed, it shall be the duty of such real-estate broker to immediately deliver or mail by registered mail to the Commission such real-estate salesman's license. The real-estate broker shall, at the time of delivering or mailing such real-estate salesman's license to the Commission, address a communication by registered mail to the last-known residence address of such real-estate salesman, which communication shall advise such real-estate salesman that his license has been delivered or mailed to the Commission. A copy of such communication to the real-estate salesman shall accompany the license when mailed or delivered to the Commission. It shall be unlawful for any real-estate salesman to perform any of the acts contemplated by this Act, either directly or indirectly, under authority of said license from and after three days following such delivery or mailing of the said license by said broker to the Commission.

Salesman's license, return on termination of service.

[Public, No. 370]

To regulate proceedings in adoption in the District of Columbia.

District of Columbia.  
Adoption proceedings.

Consent of petitioner's spouse.

Residence requirements.

Data to be furnished.

Investigation and report.

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled*, That jurisdiction is hereby conferred upon the District Court of the United States for the District of Columbia to hear and determine petitions and decrees of adoption of any adult or child (hereinafter called adoptee) with authority to make such rules, not inconsistent with this Act, as shall bring fully before the court for consideration the interests of the adoptee, the natural parents, the petitioner, and any other properly interested party. No petition shall be considered by the court unless petitioner's spouse joins in the petition or consents to the adoption. Jurisdiction is conferred if either of the following circumstances exist:

- (1) If petitioner is a legal resident of the District of Columbia;
- (2) If petitioner has actually resided in the District of Columbia for at least one year.

The petition shall state, so far as known, the name, age, race, occupation, and address of the natural parents, when known, and of the petitioner, whether the petitioner is married or single, the age and sex of the adoptee, the property owned by the adoptee, and such other facts as the court may require.

The court shall thereupon, if the adoptee is under twenty-one years of age, issue a rule with copy of the petition attached, which shall be served in such manner as the court shall therein direct, directed to all parties to the petition who do not appear and consent to the adoption, and to the Board of Public Welfare to verify the allegations of the petition, to make a thorough investigation for the purpose

of ascertaining if the adoptee is a proper subject for adoption and if the home of the petitioner is a suitable one for the adoptee and within a period not in excess of sixty days to report its findings with recommendations to the court. If an investigation already has been made by a social agency approved by the court, the Board of Public Welfare shall accept it instead of making one itself: *Provided*, That the foregoing provisions of this section relating to investigations and reports by the Board of Public Welfare or an approved social agency shall not apply, if an investigation has already been made by a recognized religious or fraternal organization, having under its care minors for adoption, no part of the net earnings of which inures to the benefit of any private shareholder or individual, and if such organization appears in the proceeding and reports to the court the results of its investigation and its recommendations with respect to the adoption.

*Proviso.  
Exceptions.*

SEC. 2. If adoptee is under twenty-one years of age, no decree of adoption shall be made unless the court shall find that the following persons have consented to the adoption: Adoptee, if fourteen or more years of age; and the natural parents or adoptive parents by a previous adoption, if living. The consent of the father of an adoptee born out of wedlock shall not be necessary unless he has both acknowledged the adoptee and contributed voluntarily to its support. The consent of a parent who is a minor shall not be voidable because of that minority.

*Consent provisions.*

If adoptee shall have attained the age of twenty-one years or over, the only consents which shall be required are those of such adoptee, and its spouse, if any.

The consent of a natural parent, or parents, or adoptive parents by a previous adoption, may be dispensed with (1) where after such notice as the court shall direct it shall appear to the court that such person or persons cannot be located; (2) where they have been permanently deprived of custody of the adoptee by court order; (3) where it shall appear to the court that they have abandoned the adoptee and voluntarily failed to contribute to his or her support for a period of at least one year next preceding the date of the filing of the petition; or (4) where investigation has shown to the satisfaction of the court extraordinary cause why such consent should be dispensed with.

*Decree of adoption.*

SEC. 3. After considering the petition, the consents, and such evidence as the parties and any other properly interested person may wish to present, the court may enter a final decree of adoption if it is satisfied (a) that adoptee is physically, mentally, and otherwise suitable for adoption by the petitioner; (b) that the petitioner is fit and able to give the adoptee a proper home and education; and (c) that the change will be for the best interests of adoptee.

No final decree of adoption shall be entered unless the adoptee shall have been living with the adoptor at least six months prior to the filing of the petition. If, however, it shall appear in the interests of the adoptee, the court may enter an interlocutory decree for adoption, which decree shall by its terms automatically become a final decree of adoption on a day therein named, which shall not be more than six months from the entry of such interlocutory decree unless such decree shall be set aside for cause shown. If it shall appear in the interests of the adoptee, the Board of Public Welfare shall visit the adoptee during the period of the interlocutory decree at regular intervals.

SEC. 4. Notice of a final decree of adoption shall be sent to the Bureau of Vital Statistics of the Health Department. This Bureau shall cause to be made a new record of the birth in the new name and with the names of the adoptor and shall then cause to be sealed and filed the original birth certificate with the order of the court and such sealed package shall be opened only by order of court.

*Notice to Vital  
Statistics Bureau,  
Health Department.*

Not to inherit from collateral relatives.

Adoptee's family name; given name.

Records open to inspection upon court order only.

Section repealed.

Provisions not retroactive, etc.

SEC. 5. Entry of a final decree of adoption shall establish the relation of natural parent and natural child between adoptor and adoptee for all purposes including mutual rights of inheritance and succession the same as if adoptee was born of adoptor, except that adoptee shall not inherit from collateral relatives of or the parents of adoptor although such collateral relatives and parents of adoptor shall have the right of inheritance from adoptee. All rights and duties including those of inheritance and succession between adoptee, his or her natural parents, their issue, collateral relatives, and so forth, shall be cut off. In the event one of the natural parents shall be the spouse of petitioner, then the rights and relations as between adoptee, such natural parent, and his or her parents and collateral relatives, including mutual rights of inheritance and succession, shall in nowise be altered.

The family name of the adoptee shall be changed to that of adoptor unless the decree shall otherwise provide, and the given name of the adoptee may be fixed or changed at the same time.

SEC. 6. Records and papers in adoption proceedings, after the petition is filed and prior to the entry of a final decree, shall be open to inspection by the parties or their attorneys and members of the Board of Public Welfare or their agents, upon order of the court. Upon the entry of a final decree the Board of Public Welfare and the clerk of the court shall seal all papers in the proceedings. Said seals shall not be broken, and said papers shall not be inspected by any person, including the parties to the proceeding, except upon order of the court. Application for leave to inspect papers in adoption proceedings shall be by petition and shall be granted only for extraordinary cause shown. The court may appoint a master to consider and investigate the facts upon which such a petition is based, who shall make his findings and recommendations to the court.

The clerk of the court shall keep a docket of all adoption proceedings which shall only be inspected upon order of the court upon the same conditions hereinabove set out for the inspection of papers.

SEC. 7. Section 395 (title 15, sec. 1, New Code) of the Code of Law of the District of Columbia is hereby repealed. The provisions hereof shall have no retroactive effect and shall not be construed as affecting in any way the rights and relations obtained by any decree of adoption entered heretofore, and all proceedings instituted and pending on the date of this enactment shall be carried to their final determination in accordance with the provisions of section 395 as if this Act had not been enacted, and all orders and decrees entered therein shall remain valid and binding on all parties thereby affected.

"Any known helium-gas-bearing land on the public domain not covered at the time by leases or permits under the Act of February 25, 1920, entitled 'An Act to promote the mining of coal, phosphate, oil, oil shale, gas, and sodium on the public domain', as amended, may be reserved for the purposes of this Act, and the United States reserves the ownership and the right to extract, under such rules and regulations as shall be prescribed by the Secretary of the Interior, helium from all gas produced from lands so permitted, leased, or otherwise granted for development: *Provided*, That in the extraction of helium from gas produced from such lands, it shall be so extracted as to cause no substantial delay in the delivery of gas produced from the well to the purchaser thereof.

"SEC. 2. That the Bureau of Mines, acting under the direction of the Secretary of the Interior, is authorized to maintain and operate helium production and repurification plants together with facilities and accessories thereto; to store and care for helium, to conduct exploration for and production of helium on and from the lands acquired, leased, or reserved; and to conduct experimentation and research for the purpose of discovering helium supplies and improving processes and methods of helium production, repurification, storage, and utilization.

"SEC. 3. (a) That the Army and Navy and other agencies of the Federal Government may requisition helium from the Bureau of Mines and make payments therefor from any applicable appropriations by advancing or repaying to and for the use of said Bureau proportionate shares of the expenses incident to the administration, operation, and maintenance of the Government's helium plants and properties.

"(b) That helium not needed for Government use may be produced and sold upon payment in advance in quantities and under regulations approved by the President, for medical, scientific, and commercial use, except that helium may be sold for the inflation of only such airships as operate in or between the United States and its Territories and possessions, or between the United States or its territories and possessions and foreign countries: *Provided*, That no helium shall be sold for the inflation of any airship operating between two foreign countries notwithstanding such airship may also touch at some point in the United States: *Provided further*, That such sales of helium shall be at reasonable prices (established by said regulations) based upon the cost of acquiring, developing, maintaining, and operating the Government properties and the payment of interest at a rate of not less than 3½ per centum per annum on capital hereafter expended (except from the special fund established in subsection (c) of section 3 of this Act) for properties, facilities, and helium-bearing gas lands, as are used for such helium production: *Provided further*, That notwithstanding the foregoing provision helium shall be sold for medicinal purposes at prices which will permit its general use therefor; and such sales of helium shall be upon condition that the Federal Government shall have a right to repurchase helium so sold that has not been lost or dissipated, when needed for Government use, under terms and at prices established by said regulations.

"(c) All moneys received under this Act, including moneys from sale of helium or other products resulting from helium operations (except moneys received in payment for helium from Government departments or agencies under subsection (a) hereof), shall be credited to a special helium-production fund from which purchasers of helium may be reimbursed for payments for helium in excess of deliveries, and the Secretary of the Interior through the Bureau of Mines may draw on said fund to pay expenses of acquiring, administering, operating, maintaining, and developing helium properties. Amounts accumulating in said fund in excess of amounts the Secretary of the Interior deems necessary to assure payment of such expenses shall be deposited in the Treasury to the credit of miscellaneous receipts: *Provided*, That the Secretary of the Interior shall render to Congress on or before the 1st day of January of each year a report showing the amount of moneys credited to such helium-production fund and the amount of disbursements made therefrom during the preceding fiscal year, and the unexpended and unobligated balances on hand in such fund as of the end of such fiscal year.

"SEC. 4. No helium gas shall be exported from the United States, or from its Territories and possessions, until after application has been made to the Secretary of State and a license authorizing said exportation has been obtained from him on the joint recommendation of all of the members of the National Munitions Control Board and the Secretary of the Interior: *Provided*, That under regulations governing exportation of helium approved by the National Munitions Control Board and the Secretary of the Interior, export shipments of quantities of helium that are not of military importance as defined in said regulations, and which do not exceed a maximum to be specified therein, may be made under license granted by the Secretary of State without such specific recommendation. Such regulations shall not permit accumulations of helium in quantities of military importance in any foreign country, nor the exportation of helium to countries named in proclamations of the President issued pursuant to section 1 (a) or (c) of the Neutrality Act of May 1, 1937 (Public Resolution Numbered 27 of the Seventy-fifth Congress) while such proclamations are in effect, and shall require exporters to submit a sworn statement to the Secretary of State showing the quantity, destination, consignee, and intended use of each proposed exportation.

"Any person violating any of the provisions of this section or of the regulations made pursuant hereto, shall be guilty of a misdemeanor and shall be punished by a fine of not more than \$5,000 or by imprisonment for not more than one year, or by both such fine and imprisonment; and the Federal courts of the United States are hereby granted jurisdiction to try and determine all questions arising under this section.

"The National Munitions Control Board shall include in its Annual Report to the Congress full information concerning the licenses issued hereunder, together with such information and data collected by the Board as may be considered of value in the determination of questions related to the exportation of helium gas.

"SEC. 5. The Secretary of War and the Secretary of the Navy may each designate representatives to cooperate with the Department of the Interior in carrying out the purposes of this Act, and shall have complete right of access to plants, data, and accounts."

Construction activity in connection with a low-rent-housing project may be confined to the reconstruction, remodeling, or repair of existing buildings.

"Administration."

(6) The term "administration" means any or all undertakings necessary for management, operation, maintenance, or financing, in connection with a low-rent-housing or slum-clearance project, subsequent to physical completion.

tion with the utilization of such services, the Authority may make reasonable payments for necessary traveling and other expenses.

(d) The President may at any time in his discretion transfer to the Authority any right, interest, or title held by any department or agency of the Federal Government in any housing or slum-clearance projects (constructed or in process of construction on the date of enactment of this Act), any assets, contracts, records, libraries, research materials, and other property held in connection with any such housing or slum-clearance projects or activities, any unexpended balance of funds allocated to such department or agency for the development, administration, or assistance of any housing or slum-clearance projects or activities, and any employees who have been engaged in work connected with housing or slum clearance. The Authority may continue any or all activities undertaken in connection with projects so transferred, subject to the provisions of this Act.

SEC. 5. (d) The Authority shall be granted the free use of the mails in the same manner as the executive departments of the Government.

(e) The Authority, including but not limited to its franchise, capital, reserves, surplus, loans, income, assets, and property of any kind, shall be exempt from all taxation now or hereafter imposed by the United States or by any State, county, municipality, or local taxing authority. Obligations, including interest thereon, issued by public housing agencies in connection with low-rent-housing or slum-clearance projects, and the income derived by such agencies from such projects, shall be exempt from all taxation now or hereafter imposed by the United States.

SEC. 6. (a) The Authority may make such expenditures, subject to audit under the general law, for the acquisition and maintenance of adequate administrative agencies, offices, vehicles, furnishings, equipment, supplies, books, periodicals, printing and binding, for attendance at meetings, for any necessary traveling expenses within the United States, its Territories, dependencies, or possessions, and for such other expenses as may from time to time be found necessary for the proper administration of this Act. Such financial transactions of the Authority as the making of loans, annual contributions, and capital grants, and the acquisition, sale, exchange, lease, or other disposition of real and personal property, and vouchers approved by the Administrator in connection with such financial transactions, shall be final and conclusive upon all officers of the Government; except that all such financial transactions of the Authority shall be audited by the General Accounting Office at such times and in such manner as the Comptroller General of the United States may by regulation prescribe.

(b) The provisions of section 3709 of the Revised Statutes (U. S. C., 1934 ed., title 41, sec. 5) shall apply to all contracts of the Authority for services and to all of its purchases of supplies except when the aggregate amount involved is less than \$300.

(c) The use of funds made available for the purposes of this Act shall be subject to the provisions of section 2 of title 3 of the Treasury and Post Office Appropriation Act for the fiscal year 1934 (47 Stat. 1489), and to make such provisions effective every contract or agreement of any kind pursuant to this Act shall contain a provision identical to the one prescribed in section 3 of title 3 of such Act.

(d) No annual contribution, grant, or loan, and no contract for any annual contribution, grant, or loan, under this Act, shall be undertaken by the Authority except with the approval of the President.

SEC. 7. (a) The Authority may publish and disseminate information pertinent to the various aspects of housing.

(b) In January of each year the Authority shall make an annual report to Congress of its operations and expenses, including loans, contributions, and grants made or contracted for, low-rent-housing and slum-clearance projects undertaken, and the assets and liabilities of the Authority. Such report shall include operating statements of all projects under the jurisdiction of or receiving the assistance of the Authority, including summaries of the incomes of occupants, sizes of families, rentals, and other related information.

SEC. 8. The Authority may from time to time make, amend, and rescind such rules and regulations as may be necessary to carry out the provisions of this Act.

#### LOANS FOR LOW-RENT-HOUSING AND SLUM-CLEARANCE PROJECTS

SEC. 9. The Authority may make loans to public-housing agencies to assist the development, acquisition, or administration of low-rent-housing or slum-clearance projects by such agencies. Where capital grants are made pursuant to section 11 the total amount of such loans outstanding on any one project and in which the Authority participates shall not exceed the development or acquisition cost of such project less all such capital grants, but in no event shall said loans exceed 90 per centum of such cost. In the case of annual contributions in assistance of low rentals as provided in section 10 the total of such loans outstanding on any one project and in which the Authority participates shall not exceed 90 per centum of the development or acquisition cost of such project. Such loans shall bear interest at such rate not less than the going Federal rate at the time the loan is made, plus one-half of one per centum, shall be secured in such manner, and shall be repaid within such period not exceeding sixty years, as may be deemed advisable by the Authority.

#### ANNUAL CONTRIBUTIONS IN ASSISTANCE OF LOW RENTALS

SEC. 10. (a) The Authority may make annual contributions to public housing agencies to assist in achieving and maintaining the low-rent character of their housing projects. The annual contributions for any such project shall be fixed in uniform amounts, and shall be paid in such amounts over a fixed period of years. No part of such annual contributions by the Authority shall be made available for any project unless and until the State, city, county, or other political subdivision in which such project is situated shall contribute, in the form of cash or tax remissions, general or special, or tax exemptions, at least 20 per centum of the annual contributions herein provided. The Authority shall embody the provisions for such annual contributions in a contract guaranteeing their payment over such fixed period: *Provided*, That no annual contributions shall be made, and the Authority shall enter into no contract guaranteeing

any annual contribution in connection with the development of any low-rent-housing or slum-clearance project involving the construction of new dwellings, unless the project includes the elimination by demolition, condemnation, and effective closing, or the compulsory repair or improvement of unsafe or insanitary dwellings situated in the locality or metropolitan area, substantially equal in number to the number of newly constructed dwellings provided by the project; except that such elimination may, in the discretion of the Authority, be deferred in any locality or metropolitan area where the shortage of decent, safe, or sanitary housing available to families of low income is so acute as to force dangerous overcrowding of such families.

(b) Annual contributions shall be strictly limited to the amounts and periods necessary, in the determination of the Authority, to assure the low-rent character of the housing projects involved. Toward this end the Authority may prescribe regulations fixing the maximum contributions available under different circumstances, giving consideration to cost, location, size, rent-paying ability of prospective tenants, or other factors bearing upon the amounts and periods of assistance needed to achieve and maintain low rentals. Such regulations may provide for rates of contribution based upon development, acquisition or administration cost, number of dwelling units, number of persons housed, or other appropriate factors: *Provided*, That the fixed contribution payable annually under any contract shall in no case exceed a sum equal to the annual yield, at the going Federal rate of interest at the time such contract is made plus 1 per centum, upon the development or acquisition cost of the low-rent housing or slum-clearance project involved: *And provided further*, That all such annual contributions shall be used first to apply toward any payment of interest or principal on any loan due to the Authority from the public housing agency.

(c) In case any contract for annual contributions is made for a period exceeding twenty years, the Authority shall reserve the right to reexamine the status of the low-rent-housing project involved at the end of ten years and every five years thereafter; and, at the time of any such reexamination, the Authority may make such modification (subject to all the provisions of this section) in the fixed and uniform amounts of subsequent annual contributions payable under such contract as is warranted by changed conditions and as is consistent with maintaining the low-rent character of the housing project involved. In no case shall any contract for annual contributions be made for a period exceeding sixty years.

(d) All payments of annual contributions pursuant to this section shall be made out of any funds available to the Authority when such payments are due, except that its capital and its funds obtained through the issuance of obligations pursuant to section 20 (including repayments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such annual contributions.

(e) The Authority is authorized, on and after the date of the enactment of this Act, to enter into contracts which provide for annual contributions aggregating not more than \$5,000,000 per annum, on or after July 1, 1938, to enter into additional such contracts which provide for annual contributions aggregating not more than \$7,500,000 per annum, and on or after July 1, 1939, to enter into additional such contracts which provide for annual contributions aggregating not more than \$7,500,000 per annum. Without further authorization from Congress, no new contracts for annual contributions beyond those herein authorized shall be entered into by the

Authority. The faith of the United States is solemnly pledged to the payment of all annual contributions contracted for pursuant to this section, and there is hereby authorized to be appropriated in each fiscal year, out of any money in the Treasury not otherwise appropriated, the amounts necessary to provide for such payments.

Federal obligations.

#### CAPITAL GRANTS IN ASSISTANCE OF LOW RENTALS

SEC. 11. (a) As an alternative method of assistance to that provided in section 10, when any public housing agency so requests and demonstrates to the satisfaction of the Authority that such alternative method is better suited to the purpose of achieving and maintaining low rentals and to the other purposes of this Act, capital grants may be made to such agency for such purposes. The capital grants thus made for any low-rent-housing or slum-clearance project shall be paid in connection with its development or acquisition, and shall be strictly limited to the amounts necessary, in the determination of the Authority, to assure its low-rent character: *Provided, however,* That no capital grant shall be made for the development of any low-rent-housing or slum-clearance project involving the construction of new dwellings, unless the project includes the elimination by demolition, condemnation, and effective closing, or the compulsory repair or improvement of unsafe or insanitary dwellings situated in the locality or metropolitan area, substantially equal in number to the number of newly constructed dwelling units provided by the project; except that such elimination may, in the discretion of the Authority, be deferred in any locality or metropolitan area where the shortage of decent, safe, or sanitary housing available to families of low income is so acute as to force dangerous overcrowding of such families.

Capital grants in assistance of low rentals.

*Proviso.*  
Condition.

(b) Pursuant to subsection (a) of this section, the Authority may make a capital grant for any low-rent-housing or slum-clearance project, which shall in no case exceed 25 per centum of its development or acquisition cost.

Limitation on amount.

(c) All payments of capital grants by the Authority pursuant to subsection (b) of this section shall be made out of any funds available to the Authority, except that its capital and its funds obtained through the issuance of obligations pursuant to section 20 (including repayments or other realizations of the principal of loans made out of such capital and funds) shall not be available for the payment of such capital grants.

Funds available.

*Post*, p. 898.

(d) The Authority is authorized, on or after the date of the enactment of this Act to make capital grants (pursuant to subsection (b) of this section) aggregating not more than \$10,000,000, on or after July 1, 1938, to make additional capital grants aggregating not more than \$10,000,000, and on or after July 1, 1939, to make additional capital grants aggregating not more than \$10,000,000. Without further authorization from Congress, no capital grants beyond those herein authorized shall be made by the Authority.

Limitation on authority to make grants.

(e) To supplement any capital grant made by the Authority in connection with the development of any low-rent-housing or slum-clearance project, the President may allocate to the Authority, from any funds available for the relief of unemployment, an additional capital grant to be expended for payment of labor used in such development: *Provided*, That such additional capital grant shall not exceed 15 per centum of the development cost of the low-rent-housing or slum-clearance project involved.

Allocation of funds to supplement grants.

*Proviso.*  
Limitation.

(f) No capital grant pursuant to this section shall be made for any low-rent-housing or slum-clearance project unless the public housing agency receiving such capital grant shall also receive, from the State,

political subdivision thereof, or otherwise, a contribution for such project (in the form of cash, land, or the value, capitalized at the going Federal rate of interest, of community facilities or services for which a charge is usually made, or tax remissions or tax exemptions) in an amount not less than 20 per centum of its development or acquisition cost.

#### DISPOSAL OF FEDERAL PROJECTS

Disposal of Federal projects.

SEC. 12. (a) It is hereby declared to be the purpose of Congress to provide for the orderly disposal of any low-rent-housing projects hereafter transferred to or acquired by the Authority through the sale or leasing of such projects as hereinafter provided; and, in order to continue the relief of Nation-wide unemployment and in order to avoid waste pending such sale or lease, to provide for the completion and temporary administration of such projects by the Authority.

Authority to sell its Federal projects, etc.

(b) As soon as practicable the Authority shall sell its Federal projects or divest itself of their management through leases.

Sale to public housing agency only; consideration.

(c) The Authority may sell a Federal project only to a public housing agency. Any such sale shall be for a consideration, in whatever form may be satisfactory to the Authority, equal at least to the amount which the Authority determines to be the fair value of the project for housing purposes of a low-rent character (making such adjustment as the Authority deems advisable for any annual contributions which may hereafter be given hereunder in aid of the project), less such allowance for depreciation as the Authority shall fix. Such project shall then become eligible for loans pursuant to section 9, and either annual contributions pursuant to section 10 or a capital grant pursuant to section 11. Any obligation of the purchaser accepted by the Authority as part of the consideration for the sale of such project shall be deemed a loan pursuant to section 9.

Eligibility for loans. *Ante*, p. 891.

Leases to public housing agency.

(d) The Authority may lease any Federal low-rent-housing project, in whole or in part, to a public housing agency. The lessee of any project, pursuant to this paragraph, shall assume and pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, and shall pay to the Authority such annual sums as the Authority shall determine are consistent with maintaining the low-rent character of such project. The provisions of section 321 of the Act of June 30, 1932 (U. S. C., 1934 edition, title 40, sec. 303 b), shall not apply to any lease pursuant to this Act.

47 Stat. 412.  
40 U. S. C. § 303b.

Rentals.

(e) In the administration of any Federal low-rent-housing project pending sale or lease, the Authority shall fix the rentals at the amounts necessary to pay all management, operation, and maintenance costs, together with payments, if any, in lieu of taxes, plus such additional amounts as the Authority shall determine are consistent with maintaining the low-rent character of such project.

#### GENERAL POWERS OF THE AUTHORITY

General powers of the Authority.

SEC. 13. (a) The Authority may foreclose on any property or commence any action to protect or enforce any right conferred upon it by any law, contract, or other agreement. The Authority may bid for and purchase at any foreclosure by any party or at any other sale, or otherwise acquire, and may administer, any low-rent-housing project which it previously owned or in connection with which it has made a loan pursuant to section 9, annual contributions pursuant to section 10, or capital grants pursuant to section 11.

(b) The acquisition by the Authority of any real property pursuant to this Act shall not deprive any State or political subdivision thereof of its civil and criminal jurisdiction in and over such property, or impair the civil rights under the State or local law of the inhabitants on such property; and, insofar as any such jurisdiction may have been taken away or any such rights impaired by reason of the acquisition of any property transferred to the Authority pursuant to section 4 (d), such jurisdiction and such rights are hereby fully restored.

State civil and criminal jurisdiction.

(c) The Authority may enter into agreements to pay annual sums in lieu of taxes to any State or political subdivision thereof with respect to any real property owned by the Authority. The amount so paid for any year upon any such property shall not exceed the taxes that would be paid to the State or subdivision, as the case may be, upon such property if it were not exempt from taxation thereby.

(e) The Authority may sell or exchange at public or private sale, or lease, any real property (except low-rent-housing projects, the disposition of which is governed elsewhere in this Act) or personal property, and sell or exchange any securities or obligations, upon such terms as it may fix. The Authority may borrow on the security of any real or personal property owned by it, or on the security of the revenues to be derived therefrom, and may use the proceeds of such loans for the purposes of this Act.

SEC. 14. Subject to the specific limitations or standards in this Act governing the terms of sales, rentals, leases, loans, contracts for annual contributions, contracts for capital grants, or other agreements, the Authority may, whenever it deems it necessary or desirable in the fulfillment of the purposes of this Act, consent to the modification, with respect to rate of interest, time of payment of any installment of principal or interest, security, amount of annual contribution, or any other term, of any contract or agreement of any kind to which the Authority is a party or which has been transferred to it pursuant to this Act. Any rule of law contrary to this provision shall be deemed inapplicable.

Title II—Quota provisions.

## TITLE II—QUOTA PROVISIONS

Annual determination of requirements.

SEC. 201. The Secretary shall determine for each calendar year the amount of sugar needed to meet the requirements of consumers in the continental United States; such determinations shall be made during the month of December in each year for the succeeding calendar year and at such other times during such calendar year as the Secretary may deem necessary to meet such requirements. In making such determinations the Secretary shall use as a basis the quantity of direct-consumption sugar distributed for consumption, as indicated by official statistics of the Department of Agriculture, during the twelve-month period ending October 31 next preceding the calendar year for which the determination is being made, and shall make allowances for a deficiency or surplus in inventories of sugar, and changes in consumption, as computed from statistics published by agencies of the Federal Government with respect to inventories of sugar, population, and demand conditions; and in order that the regulation of commerce provided for under this Act shall not result in excessive prices to consumers, the Secretary may make such additional allowances as he may deem necessary in the amount of sugar determined to be needed to meet the requirements of consumers, so that the supply of sugar made available under this Act shall not result in average prices to consumers in excess of those necessary to maintain the

domestic sugar industry as a whole, and the amounts of such additional allowances shall be such that in no event will the amount of the total supply be less than the quantity of sugar required to give consumers of sugar in the continental United States a per capita consumption equal to that of the average of the two-year period 1935-1936.

SEC. 202. Whenever a determination is made, pursuant to section 201, of the amount of sugar needed to meet the requirements of consumers, the Secretary shall establish quotas, or revise existing quotas—

(a) For domestic sugar-producing areas by prorating among such areas 55.59 per centum of such amount of sugar (but not less than 3,715,000 short tons) on the following basis:

Area	Per centum
Domestic beet sugar-----	41.72
Mainland cane sugar-----	11.31
Hawaii-----	25.25
Puerto Rico-----	21.48
Virgin Islands-----	.24

Domestic areas.

(b) For foreign countries, and the Commonwealth of the Philippine Islands, by prorating 44.41 per centum of such amount of sugar (except, if such amount of sugar is less than 6,682,670 short tons, the excess of such amount over 3,715,000 short tons) on the following basis:

Area	Per centum
Commonwealth of the Philippine Islands-----	34.70
Cuba-----	64.41
Foreign countries other than Cuba-----	.89

Foreign countries.

In no case shall the quota for the Commonwealth of the Philippine Islands be less than the duty-free quota now established by the provisions of the Philippine Independence Act.

The quota for foreign countries other than Cuba shall be prorated among such countries on the basis of the division of the quota for such countries made in General Sugar Quota Regulations, Series 4, Number 1, issued December 12, 1936, pursuant to the Agricultural Adjustment Act, as amended.

SEC. 203. In accordance with the applicable provisions of section 201, the Secretary shall also determine the amount of sugar needed to meet the requirements of consumers in the Territory of Hawaii, and in Puerto Rico, and shall establish quotas for the amounts of sugar which may be marketed for local consumption in such areas equal to the amounts determined to be needed to meet the requirements of consumers therein.

SEC. 204. (a) The Secretary shall, as he deems necessary during the calendar year, determine whether, in view of the current inventories of sugar, the estimated production from the acreage of sugarcane or sugar beets planted, the normal marketings within a calendar year of new-crop sugar, and other pertinent factors, any domestic area, the Commonwealth of the Philippine Islands, or Cuba, will be unable to market the quota for such area. If the Secretary finds that any domestic area or Cuba will be unable to market the quota for such area for the calendar year then current, he shall revise the quotas for the domestic areas and Cuba by prorating an amount of sugar equal to the deficit so determined to the other such areas, on the basis of the quotas then in effect. Any portion of such sugar which the Secretary determines cannot be supplied by domestic areas and Cuba shall be prorated to foreign countries other than Cuba on the basis of the prorations of the quota then in effect for such

If the Secretary finds that the Commonwealth of the Philippine Islands will be unable to market the quota for such area for the calendar year then current, he shall revise the quota for foreign countries other than Cuba by prorating an amount of sugar equal to the deficit so determined to such foreign countries, on the basis of the prorations of the quota then in effect for such countries: *Provided, however,* That the quota for any domestic area, the Commonwealth of the Philippine Islands, or Cuba or other foreign countries, shall not be reduced by reason of any determination made pursuant to the provisions of this subsection.

Allotment of quota  
to persons marketing  
or importing sugar, etc.

(b) If, on the 1st day of September in any calendar year, any part or all of the proration to any foreign country of the quota in effect on the 1st day of July in the same calendar year for foreign countries other than Cuba, has not been filled, the Secretary may revise the proration of such quota among such foreign countries, by prorating an amount of sugar equal to such unfilled proration to all other such foreign countries which have filled their prorations of such quota by such date, on the basis of the prorations then in effect.

SEC. 205. (a) Whenever the Secretary finds that the allotment of any quota, or proration thereof, established for any area pursuant to the provisions of this Act, is necessary to assure an orderly and adequate flow of sugar or liquid sugar in the channels of interstate or foreign commerce, or to prevent disorderly marketing or importation of sugar or liquid sugar, or to maintain a continuous and stable supply of sugar or liquid sugar, or to afford all interested persons an equitable opportunity to market sugar or liquid sugar within any area's quota, after such hearing and upon such notice as he may by regulations prescribe, he shall make allotments of such quota or proration thereof by allotting to persons who market or import sugar or liquid sugar, for such periods as he may designate, the quantities of sugar or liquid sugar which each such person may market in continental United States, the Territory of Hawaii, or Puerto Rico, or may import or bring into continental United States, for consumption therein. Allotments shall be made in such manner and in such amounts as to provide a fair, efficient, and equitable distribution of such quota or proration thereof, by taking into consideration the processings of sugar or liquid sugar from sugar beets or sugarcane to which proportionate shares, determined pursuant to the provisions of subsection (b) of section 302, pertained; the past marketings or importations of each such person; or the ability of such person to market or import that portion of such quota or proration thereof allotted to him. The Secretary may also, upon such hearing and notice as he may by regulations prescribe, revise or amend any such allotment upon the same basis as the initial allotment was made.

Appeal from de-  
cision making allot-  
ment.

(b) An appeal may be taken, in the manner hereinafter provided, from any decision making such allotments, or revision thereof, to the United States Court of Appeals for the District of Columbia in any of the following cases:

(1) By any applicant for an allotment whose application shall have been denied.

(2) By any person aggrieved by reason of any decision of the Secretary granting or revising any allotment made to him.

Proceedings.

(c) Such appeal shall be taken by filing with said court within twenty days after the decision complained of is effective, notice in writing of said appeal and a statement of the reasons therefor, together with proof of service of a true copy of said notice and statement upon the Secretary. Unless a later date is specified by the Secretary as part of his decision, the decision complained of shall be considered to be effective as of the date on which public announcement of the decision is made at the office of the Secretary

in the city of Washington. The Secretary shall thereupon, and in any event not later than ten days from the date of such service upon him, mail or otherwise deliver a copy of said notice of appeal to each person shown by the records of the Secretary to be interested in such appeal and to have a right to intervene therein under the provisions of this section, and shall at all times thereafter permit any such person to inspect and make copies of appellants' reasons for said appeal at the office of the Secretary in the city of Washington. Within thirty days after the filing of said appeal the Secretary shall file with the court the originals or certified copies of all papers and evidence presented to him upon the hearing involved and also a like copy of his decision thereon and shall within thirty days thereafter file a full statement in writing of the facts and grounds for his decision as found and given by him and a list of all interested persons to whom he has mailed or otherwise delivered a copy of said notice of appeal.

(d) Within thirty days after the filing of said appeal any interested person may intervene and participate in the proceedings had upon said appeal by filing with the court a notice of intention to intervene and a verified statement showing the nature of the interest of such party together with proof of service of true copies of said notice and statement, both upon the appellant and upon the Secretary. Any person who would be aggrieved or whose interests would be adversely affected by reversal or modification of the decision of the Secretary complained of shall be considered an interested party.

(e) At the earliest convenient time the court shall hear and determine the appeal upon the record before it, and shall have power, upon such record, to enter a judgment affirming or reversing the decision, and if it enters an order reversing the decision of the Secretary it shall remand the case to the Secretary to carry out the judgment of the court: *Provided, however,* That the review by the court shall be limited to questions of law and that findings of fact by the Secretary, if supported by substantial evidence, shall be conclusive unless it shall clearly appear that the findings of the Secretary are arbitrary or capricious. The court's judgment shall be final, subject, however, to review by the Supreme Court of the United States, upon writ of certiorari on petition therefor, under section 240 of the Judicial Code, as amended (U. S. C., 1934 ed., title 28, sec. 347), by appellant, by the Secretary, or by any interested party intervening in the appeal.

(f) The court may, in its discretion, enter judgment for costs in favor of or against an appellant, and other interested parties intervening in said appeal, but not against the Secretary, depending upon the nature of the issues involved in such appeal and the outcome thereof.

(g) The Government of the Commonwealth of the Philippine Islands shall make allotments of any quota established for it pursuant to the provisions of this Act on the basis specified in section 6 (d) of Public Law Numbered 127, approved March 24, 1934.

SEC. 206. Until sugar quotas are established pursuant to this Act for the calendar year 1937, which shall be within sixty days after its enactment, the quotas determined by the Secretary in General Sugar Quota Regulations, Series 4, Number 1, issued December 12, 1936, pursuant to the provisions of the Agricultural Adjustment Act, as amended, shall remain in full force and effect.

SEC. 207. (a) Not more than twenty-nine thousand six hundred and sixteen short tons, raw value, of the quota for Hawaii for each of the calendar years 1937, 1938, and 1939 may be filled by direct-consumption sugar; and not more than four thousand nine hundred

(b) In determining the proportionate shares with respect to a farm, the Secretary may take into consideration the past production on the farm of sugar beets and sugarcane marketed (or processed) for the extraction of sugar or liquid sugar and the ability to produce such sugar beets or sugarcane, and the Secretary shall, insofar as practicable, protect the interests of new producers and small producers and the interests of producers who are cash tenants, sharetenants, adherent planters, or share-croppers.

## AN ACT

To provide that the United States shall aid the States in wildlife-restoration projects, and for other purposes.

September 2, 1937  
[S. 2670]  
[Public, No. 415]

*Be it enacted by the Senate and House of Representatives of the United States of America in Congress assembled,* That the Secretary of Agriculture is authorized to cooperate with the States, through their respective State fish and game departments, in wildlife-restoration projects as hereinafter set forth; but no money apportioned under this Act to any State shall be expended therein until its legislature, or other State agency authorized by the State constitution to make laws governing the conservation of wildlife, shall have assented to the provision of this Act and shall have passed laws for the conservation of wildlife which shall include a prohibition against the diversion of license fees paid by hunters for any other purpose than the administration of said State fish and game department, except that, until the final adjournment of the first regular session of the legislature held after the passage of this Act, the assent of the Governor of the State shall be sufficient. The Secretary of Agriculture and the State fish and game department of each State accepting the benefits of this Act shall agree upon the wildlife-restoration projects to be aided in such State under the terms of this Act and all projects shall conform to the standards fixed by the Secretary of Agriculture.

SEC. 2. For the purposes of this Act the term "wildlife-restoration project" shall be construed to mean and include the selection, restoration, rehabilitation, and improvement of areas of land or water adaptable as feeding, resting, or breeding places for wildlife, including acquisition by purchase, condemnation, lease, or gift of such areas or estates or interests therein as are suitable or capable of being made suitable therefor, and the construction thereon or therein of such works as may be necessary to make them available for such purposes and also including such research into problems of wildlife management as may be necessary to efficient administration affecting wildlife resources, and such preliminary or incidental costs and expenses as may be incurred in and about such projects; the term "State fish and game department" shall be construed to mean and include any department or division of department of another name, or commission, or official or officials, of a State empowered under its laws to exercise the functions ordinarily exercised by a State fish and game department.

"Wildlife-restoration project" defined.

"State fish and game department."

SEC. 3. An amount equal to the revenue accruing during the fiscal year ending June 30, 1939, and each fiscal year thereafter, from the tax imposed by section 610, title IV, of the Revenue Act of 1932 (47 Stat. 169), as heretofore or hereafter extended and amended, on firearms, shells, and cartridges, is hereby authorized to be set apart in the Treasury as a special fund to be known as "The Federal aid to wildlife-restoration fund" and is hereby authorized to be appropriated and made available until expended for the purposes of this Act. So much of such appropriation apportioned to any State for any fiscal year as remains unexpended at the close thereof is authorized to be made available for expenditure in that State until the close of the succeeding fiscal year. Any amount apportioned to any State under the provisions of this Act which is unexpended or unobligated at the end of the period during which it is available for expenditure on any project is authorized to be made available for expenditure by the Secretary of Agriculture in carrying out the provisions of the Migratory Bird Conservation Act.

SEC. 4. So much, not to exceed 8 per centum, of the revenue covered into said fund in each fiscal year as the Secretary of Agriculture may estimate to be necessary for his expenses in the administration and execution of this Act and the Migratory Bird Conservation Act shall be deducted for that purpose, and such sum is authorized to be made available therefor until the expiration of the next succeeding fiscal year, and within sixty days after the close of such fiscal year the Secretary of Agriculture shall apportion such part thereof as remains unexpended by him, if any, and make certificate thereof to the Secretary of the Treasury and to the State fish and game departments on the same basis and in the same manner as is provided as to other amounts authorized by this Act to be apportioned among the States for such current fiscal year. The Secretary of Agriculture, after making the aforesaid deduction, shall apportion the remainder of the revenues in said fund for each fiscal year among the several States in the following manner, that is to say, one-half in the ratio which the area of each State bears to the total area of all the States and one-half in the ratio which the number of paid hunting-license holders of each State in the preceding fiscal year, as certified to said Secretary by the State fish and game departments, bears to the total number of paid hunting-license holders of all the States: *Provided*, That the apportionment for any one State shall not exceed the sum of \$150,000 annually: *Provided further*, That where the apportionment to any State under this section is less than \$15,000 annually, the Secretary of Agriculture may allocate not more than \$15,000 of said fund to said State to carry out the purposes of this Act when said State certifies to the Secretary of Agriculture that it has set aside not less than \$5,000 from its fish and game funds or has made, through its legislature, an appropriation in this amount, for said purposes.

SEC. 5. Within sixty days after the approval of this Act the Secretary of Agriculture shall certify to the Secretary of the Treasury and to each State fish and game department the sum which he has estimated to be deducted for administering and executing this Act and the Migratory Bird Conservation Act and the sum which he has apportioned to each State for the fiscal year ending June 30, 1939, and on or before February 20 next preceding the commencement of each succeeding fiscal year shall make like certificates for such fiscal year. Any State desiring to avail itself of the benefits of this Act shall notify the Secretary of Agriculture to this effect within sixty days after it has received the certification referred to in this section. The sum apportioned to any State which fails to notify the Secretary of Agriculture as herein provided is authorized to be made available for expenditure by the Secretary of Agriculture in carrying out the provisions of the Migratory Bird Conservation Act.

SEC. 6. Any State desiring to avail itself of the benefits of this Act shall by its State fish and game department submit to the Secretary of Agriculture full and detailed statements of any wildlife-restoration project proposed for that State. If the Secretary of Agriculture finds that such project meets with the standards set up by him and approves said project, the State fish and game department shall furnish to him such surveys, plans, specifications, and estimates therefor as he may require: *Provided, however*, That the Secretary of Agriculture shall approve only such projects as may be substantial in character and design and the expenditure of funds hereby authorized shall be applied only to such approved projects and if otherwise applied they shall be replaced by the State before it may participate in any further apportionment under this Act.

Items included for engineering, inspection, and unforeseen contingencies in connection with any works to be constructed shall not exceed 10 per centum of the cost of such works and shall be paid by the State as a part of its contribution to the total cost of such works. If the Secretary of Agriculture approves the plans, specifications, and estimates for the project, he shall notify the State fish and game department and immediately certify the fact to the Secretary of the Treasury. The Secretary of the Treasury shall thereupon set aside so much of said fund as represents the share of the United States payable under this Act on account of such project, which sum so set aside shall not exceed 75 per centum of the total estimated cost thereof. No payment of any money apportioned under this Act shall be made on any project until such statement of the project and the plans, specifications, and estimates thereof shall have been submitted to and approved by the Secretary of Agriculture.

SEC. 7. When the Secretary of Agriculture shall find that any project approved by him has been completed or, if involving research relating to wildlife, is being conducted, in compliance with said plans and specifications, he shall cause to be paid to the proper authority of said State the amount set aside for said project: *Provided, That* the Secretary of Agriculture may, in his discretion, from time to time, make payments on said project as the same progresses; but these payments, including previous payments, if any, shall not be more than the United States' pro-rata share of the project in conformity with said plans and specifications. Any construction work and labor in each State shall be performed in accordance with its laws and under the direct supervision of the State fish and game department, subject to the inspection and approval of the Secretary of Agriculture and in accordance with rules and regulations made pursuant to this Act. The Secretary of Agriculture and the State fish and game department of each State may jointly determine at what times and in what amounts payments, as work progresses, shall be made under this Act. Such payments shall be made by the Secretary of the Treasury, on warrants drawn by the Secretary of Agriculture against the said fund to such official or officials, or depository, as may be designated by the State fish and game department and authorized under the laws of the State to receive public funds of the State.

SEC. 8. To maintain wildlife-restoration projects established under the provisions of this Act shall be the duty of the States according to their respective laws.

SEC. 9. Out of the deductions set aside for administering and executing this Act and the Migratory Bird Conservation Act, the Secretary of Agriculture is authorized to employ such assistants, clerks, and other persons in the city of Washington and elsewhere, to be taken from the eligible lists of the Civil Service; to rent or construct buildings outside of the city of Washington; to purchase such supplies, materials, equipment, office fixtures, and apparatus; and to incur such travel and other expenses, including purchase, maintenance, and hire of passenger-carrying motor vehicles, as he may deem necessary for carrying out the purposes of this Act.

SEC. 10. The Secretary of Agriculture is authorized to make rules and regulations for carrying out the provisions of this Act.

SEC. 11. The Secretary of Agriculture shall make an annual report to the Congress of the sum set apart in "The Federal aid to wildlife restoration fund", giving detailed information as to the projects and expenditures therefor.
